RE: 2014-2015 School Public Accountability Report: Chiles High School

Dear Parents and Community Members,

The education, character development, health and safety of our students are part of our commitment to the students and families of Chiles High School. At Chiles, we make it a goal to work cooperatively with our staff, parents and community members to set high expectations. In trying to meet those expectations, we have committees dedicated to evaluating our school programs and classroom instruction. Instruction is supported by research, progress monitoring, academic intervention, guidance assistance, school tutoring, enrichment programs as well as student recognition ceremonies.

Thank you for all of your hard work and effort in making Chiles the one of the best high schools in the state of Florida and the United States. I would like to congratulate our 2015 senior class who earned millions of dollars of scholarship and grant money through their hard work and dedication. I am humbled by the opportunity to remain your principal for the 2015-2016 school year and continue to serve the stakeholders of this community. I'm delighted to be working with an outstanding group of parents, students, faculty and staff to pursue our goals for higher levels of achievement and character. As we move into the school year, old faces will have moved on and new faces will be joining our exceptional staff. Let me take the time to encourage you to do one of the following: serve on our School Advisory Council (SAC), join the Parent Teacher Student Organization (PTSO), join the Chiles Listserv, download the Schoolwires Chiles App (available on iOS or Android), volunteer, mentor, or support our athletic, extra-curricular/enrichment programs. We are the best because you are the difference!

School grades will be released this no earlier than December and we are delighted by the achievement of our students in the 14-15 school year. We are committed to making continuous adjustments to our School Improvement Plan to meet the expectations of our community and state for the 15-16 school year. Within that plan, we will devise strategies to help our students overcome challenges they may face in reaching those expectations.

Our School Public Accountability Report (SPAR) is included with this letter. The purpose of this report is to allow our community to review items about our past school year's progress. The report contains a wealth of information on school demographics, enrollment, testing data, school staff, and cost analysis. The 2014-2015 School Public Accountability Report (SPAR) for Chiles is available for viewing in the school office or can be accessed on-line at <http://doeweb-prd.doe.state.fl.us/eds/nclb spar/index.cfm> or <http://www.leonschools.net/chiles>. If you contact the school, we will send you a copy of the report at your request. We encourage your participation and input with regard to our continuing school improvement efforts.

Sincerely,

Joseph L. Burgess
Principal
