

# STARS SUMMER PROGRAM

2017

## 21st CCLC PROGRAM INFORMATION

June 5th—July 20th (CLOSED July 3rd-July 7th)

**Applications are accepted on a first come first serve basis. The Program is limited to 35 students.**

The 21st CCLC Summer Program at Apalachee Elementary, will be held Monday through Thursday from (8:00am until 1:00pm). The ATMSA Summer program provides additional opportunities for academic and personal enrichment for targeted students, with the primary goals of improving academic achievement, increasing the availability of and exposure to enriching activities, and increasing parental involvement. The primary program components include Reading, Math, Science, Wellness, Technology, Art, and Music. The program includes Project Based Learning activities. The program is a lot of fun, but is also structured and focused on program goals. Students are provided with a nutritious snack each day, and are provided with breakfast and lunch. Transportation is not provided, so parents must pick up their child by the dismissal time each day. Parents also have the option to enroll their child into the ATMSA Summer Extended Day Enrichment Program for a fee of \$40.00 a week, which would allow the child to remain on campus until 6:00 pm.
