

FREE ONLINE Math Games and Extension Skills

All sites have always been free or are recently free due to our new circumstances.

<https://www.khanacademy.org/hourofcode>

This is the always wonderful Hour of Code through Khan Academy! Students can learn different coding skills, within 3 one hour segments. This is a hit with kids.

www.funbrain.com

Check out the Math Zone for fourth grade.

www.mathblaster.com

With an intergalactic hero theme, this is a cool one to check out. Registration is free.

www.coolmath.com

An all-time favorite.

<https://trockstars.com/page/covid19support>

Times Tables Rockstars is for students who want another way to practice multiplication facts. This is the Covid 19 link for a free account. :)

www.khanacademy.org

Your child could continue in his/her own path (entitled My Course) after completing all assigned lessons. What is most fun is going anywhere in Khan Academy and selecting any kid of math or science – any grade level. Click on Courses at the very top left of your students account. Great for kids who want to challenge themselves with 5th or 6th grade math. :)

www.hoodamath.com

Many games can be found from this site.
