Good afternoon,

I hope everyone has a wonderful three-day weekend. I know after the last few weeks, everyone is ready to have some time to relax. I am sure many of us have family members who have made sacrifices to serve our country. This is a terrific time to reflect on how much we appreciate our veterans.

### Fall Festival

The hairspray booth was a hit! Thanks to Ashley Githens (Mason's mom) for coordinating our class booth. Thanks to Ms. Yale for going out and finding and buying capes for our booth. Thanks to the families that sent in supplies: Amanda Yale, Kristin Whitaker, Lyndsey Palmer, Courtney Gwaltney, Jaren Vass, Kisha Boccio. Thanks to Sean and Ashley Githens, Angela Tewfik, and Veronica Perkins for working the booth!

### Space Project: Due 11/12/19 - THIS Tuesday!

Most of the students are working hard and are on track, but unfortunately some students have shared they have not started working on their project. This project is a TEST grade and will have a very large impact on their science grade and language arts grade. I gave the students a copy of the project requirements, and I emailed them everyone as well.

I provided the students with the fact cards sheets they are required to use to record facts and write the facts in their own words. This will make writing the actual paragraphs easier. I told the students if they needed more to let me know and I would give them more. I am emailing a copy of the fact cards today.

Please make sure the students use the facts that they wrote in **their own words**. **The facts sheets will need to be turned in with their final papers**. The students will not read their papers, but will share six to ten things they learned or found most interesting about their topic.
