Good afternoon,

Our class has had another productive week of learning! Some of the activities we worked on included learning how to find text evidence related to character development and making inferences, the characteristics of a personal narrative and we are now ready to plan our own. We worked on a variety of strategies to solve addition and subtraction problems and about the states of matter and the changing states of matter. The students enjoyed "Building a treehouse" Lego Challenge. The treehouses were all different and interesting!

Grandfoxes Day was a blast! It was so cool to be able to meet all the Grandfoxes that could attend. After two long years of missing this event, it was great to be able to enjoy it again!

**Important Dates**
