Welcome to the Leon parent registration portal. The Focus Parent Portal is a tool designed to enhance communication and involvement for you in your child’s education. This portal will allow you to monitor your child’s progress in school by providing timely access to both assignments and grades that are entered by the teacher throughout the grading period. This communication tool will improve your ability to assist your child and to communicate with the teacher if necessary.

In order to create a Parent Portal account online, you must have a valid email address. If you are unable to create an account, visit your child’s school for assistance.

Why should I connect to the Parent Portal?

- See a real-time view of your child's upcoming assignments, class averages, attendance information, e-mail notifications, individual assignment grades, as well as the student's FSA/EOC test history scores directly within the portal.
- A secure site to pay your child's before/after school program fees AND place money in their lunch account.

*Once you have created your credentials on the portal, please download the free Leon County District Schools FOCUS app for parents and students through the Apple and Android stores. The app is a great supplement to the Focus Portal designed to enable quick and easy access while mobile. This includes your student's grades, attendance, schedule, upcoming assignments, social media links, and district information. In addition, important school notifications can be pushed to the app. Our goal is to keep you in the know - even while you are on the go! **The Focus Portal and app use the same login credentials.***
