

Fact/Joke of the day!

By: Emma

Fact

Your fingernails grow faster when you are cold

If you eat too many carrots you can turn orange!

Explanation (I was wondering) Youd have to eat a lot! Most than you probably ever will... it has to do with the high levels of pigment... beta-carotene (very concentrated) 10x more than any other vegetable which enters the bloodstream and can turn your skin orange

Joke

- **Why did the kid cross the playground?**

- **Next slide for answer**

- Disclaimer: finding jokes that kids understand is difficult

Joke Answer

- **To get to the other slide!**
- **Explanation: Playgrounds have slides and the regular joke is "why did the chicken cross the road? To get to the other side" but because it's a playground it's a slide.**
