

ClassLink Agent PC Installation

The ClassLink Agent is used in order to open files on your own device, if you would like to edit files using a program on your computer instead of editing online.

1. Click on the circle inside the cloud to get the download agent option.

2. Click on the 'Download Agent' button

3. To begin installing the agent, click on the 'Save File' in the msi installation window.
4. To continue installing the agent, click on the download down arrow in the top right. Click on the LaunchPadAgent msi file.
5. Click 'Run' in the installation window.
6. Click 'Next' 3 times in the installation window.
7. If needed, click 'Yes' to allow the agent to be installed on your computer.
8. Close the installation window.
9. Verify that the agent is installed by clicking the green link at the bottom of the download box.
