

**Leon County Virtual School (LCVS):**

Leon County Virtual School uses a set curriculum created by developers at the state level. Students will be able to progress at their own speed with no set weekly schedule. Learning will be done asynchronously. Students will be expected to follow the pacing guide set by the virtual schools or they could be withdrawn. Contact with teachers is predominantly through emails and phone calls for Discussion Based Assessments and Monthly Phone Calls. **In order to register for LCVS, a student must withdraw from SCMS and enroll into the virtual school of their choice. This may nullify their School Choice reassignment status.**
