STATE TESTING THIS FALL

The FSA 10th Grade ELA Reading & Writing test will be given this fall for all current 11th graders who did not have the opportunity to take it in the spring due to the pandemic. Seniors who still need to pass this test or get a concordant score for graduation will be meeting with their guidance counselors for the best option to achieve this requirement. The Algebra EOC will also be given this fall for students who still need to pass it for graduation as well as for all Algebra students who did not have the opportunity to take it last spring. The testing window begins this week and continues until December.

We will be testing all of our FSA/ELA students, through their 11th grade English classes. Brick and mortar students will go with their class to test in the labs. We will have our D.A. students coming to the 200 building after school at designated times to take the three day test on the same day as our brick and mortar students. Information will be given out by each student’s English teacher.

During testing, all students will wear masks and be seated 6 feet apart. Temperatures will be taken at the door and students will not be admitted if they have a 100 degree temperature or higher.

If you have any questions or concerns, please e-mail our testing coordinator, Aaron Clark at clarka@leonschools.net
