

Lunch Period Locations for Second Semester

Due to our rotating block bell schedule, lunch periods are assigned by the area of a student's second block period (3rd and 4th periods). This means a student may have lunch at a different time from one day to the next based on the location of their classroom.

We are dividing the campus down the middle. Standing at the Trojan statue, looking toward the building, all classrooms to the left will be A lunch, and classrooms to the right will be B lunch.
