ITEM SUMMARY: The committee for the appointment of engineers convened on September 27, 2017 to interview engineering firms for Riley Elementary School Underground Waterline Replacement Project. Four (4) firms submitted qualification statements for this project, of which four (4) were selected to interview. The committee ranked the firms as follows:

1. McGinnis & Fleming Engineering, Inc.
2. Pinnacle Engineering Group, P.A.
3. H2 Engineering, Inc.
4. Dewberry Engineers, in. d/b/a Dewberry/Preble-Rish

The total estimated construction budget for Riley Elementary School Underground Waterline Replacement Project is \$600,000.00.

The recommended construction delivery method for this project is Construction Management. Major tasks are defined but there is potential for unknown conditions and the need to work around the schools schedule. The type of work is not unique but coordination and timing of all the required trades is complicated. District staffing is not sufficient to provide the type of supervision needed on this project during the busy summer construction session.
