A.R. Goal for the Week

Points- 60% of goal

Average- 85%

Important Dates to Remember

November 17- Space Diorama Due

November 17- Progress Reports available on FOCUS

November 18- Earth and Space test in Science

November 30-December 3- Winter Wonderland Shop

November 22-26- Thanksgiving Break

December 20-January 4- Winter Break

Space Diorama- Due Wednesday, November 17

If your child has finished their project, they may bring it in before next Wednesday. Most students have made their topic choice for their Diorama. Please make sure that students have begun their research and are not leaving everything until the last minute. If your student needs help with research (books, etc.), please let me know and I will help them select some resources in the Media Center.

Winter Wonderland Holiday Shop, November 30- December 3

The Winter Wonderland Holiday Shop is a fun way for students to shop for family members and experience the spirit of giving while learning to budget and shop for others. On November 29th, we will preview the selection. A parent letter for students to take home will be sent out soon. The shop will be open for students to purchase gifts November 30-December 3 from 8:45-2:30. In order to shop, students will need to pay with cash or checks (made to Roberts PTO).

It will be a magical experience for our students as they spread cheer to their families through their personally selected gifts!

Weekly Report/ A.R. Goal

Please make sure to check the back of your child's Weekly report to make sure that they are keeping up with their A.R. Goals. Students should be reading 20 minutes each night as part of their weekly homework.

Math- Multiplication/ The Big Mix

Students have received flash cards that they can keep in their Fox File to practice their facts. I also introduced the steps that they need to take in order to take The Big Mix (passing individual facts 2's, 3's, etc.). There are also several free websites that have multiplication skill practice including one that we use in class, Xtramath. I am encouraging students to begin to practice 3-5 minutes a day in the next few weeks.
