December 20-January 4- Winter Break

Fall Party

Thank you to all of our families for the goodies. Have a wonderful and safe Halloween!!

Weekly Report/ A.R. Goal

Please make sure to check the back of your child's Weekly report to make sure that they are keeping up with their A.R. Goals. Students should be reading 20 minutes each night as part of their weekly homework.

Vacation Plans

Let me know if your child is going to be out any other days than the normally scheduled vacation days. The 2nd 9 weeks will be a busy one and I want to make sure that students do not miss any instruction or assessments.

Space Diorama

On Monday, I will be introducing a project that students are to work on at home on our Space Unit. I will send instructions home with students and also send a digital copy to families so that you have it. Students will be creating a Space diorama and including research on their topic. I encourage students to be creative and use things that they may already have at home. Please let me know if you have any questions.

Math- Multiplication/ The Big Mix

Students have received flash cards that they can keep in their Fox File to practice their facts. I also introduced the steps that they need to take in order to take The Big Mix (passing individual facts 2's, 3's, etc.). There are also several free websites that have multiplication skill practice including one that we use in class, Xtramath. I am encouraging students to begin to practice 3-5 minutes a day in the next few weeks.
