

Group Hospital Indemnity Insurance - Plan 2

Keep your finances on track when you're in the hospital.

Planned or unplanned, a trip to the hospital can be scary. It can be even more frightening to know that your medical insurance probably won't cover all your costs. Group Hospital Indemnity insurance can help cover unexpected out-of-pocket expenses such as copays, deductibles and out-of-network charges, as well as everyday living expenses. It pays a benefit directly to you for hospital-related events, regardless of your treatment costs or other insurance coverage you might have.

A day in the hospital costs around \$2,000;¹ a day in the maternity ward costs about \$4,000.²

Between 2003 and 2013, the costs of the average hospital stay of 4.6 days increased from \$7,500 to \$10,500.²

A cash benefit when you need it.

Even the best budgeters can forget to set aside money for medical expenses. Hospital Indemnity insurance provides a way to cover unexpected out-of-pocket expenses when you end up in the hospital. It also allows you to:

- **Choose how to spend your benefit.** It's your money — spend it however you want, whether it's to pay for your groceries, rent or medical bills.
- **Get a break from paying premiums during long hospital stays.** If you are in the hospital for more than 30 days, you will be able to stop making premium payments until you're discharged.
- **Take it with you.** If you leave your job, you can take your coverage with you.
- **Receive a benefit for taking care of your health.** You can get a Health Maintenance Screening Benefit of \$50 once a calendar year just for going to the doctor for a covered wellness exam, such as a bone density screening or mammogram — routine preventive visits that typically cost you nothing under your medical plan.

Regardless of what other insurance coverage you may have, Hospital Indemnity insurance pays you a fixed benefit for every day you are in the hospital.

Here's how it works:

Kim is out of town on a business trip when she experiences abdominal pain and a racing heartbeat. Diagnosis: ruptured gastric ulcer. She is rushed to the hospital, admitted and taken into surgery. She ends up being hospitalized for 10 days, three of which are in a critical care unit.

Kim's husband leaves their two kids with their daycare provider and flies to be at her side. The family now faces additional costs for travel and childcare.

IMPORTANT NOTICE TO PERSONS ON MEDICARE: THIS IS NOT MEDICARE SUPPLEMENT INSURANCE

Some healthcare services paid for by Medicare may also trigger the payment of benefits from this policy.

This insurance pays a fixed dollar amount, regardless of your expenses, for each day you meet the policy conditions. It does not pay your Medicare deductibles or coinsurance and is not a substitute for Medicare Supplement insurance.

Medicare generally pays for most or all of these expenses.

Medicare pays extensive benefits for medically necessary services regardless of the reason you need them. These include:

- Hospitalization
- Physician services
- Hospice
- Outpatient prescription drugs if you are enrolled in Medicare Part D
- Other approved items and services

This policy must pay benefits without regard to other health benefit coverage to which you may be entitled under Medicare or other insurance.

Before you buy this insurance:

- Check the coverage in all health insurance policies you already have.
