

ANALYTIC
ORANGE™

Implementation & Training Plan

Our materials, resources, and professional development are 100% teacher-created.
We are here to serve and support district-wide implementation.

OUR PROMISE

We are professional. We are entertaining. We honor your time.
We add value to your teaching practice.

OUR FOCUS

We target social studies content and student-engagement best practices.
We share evidence-based effective practices, relative research, and scholarly articles.
We provide multiple pathways to teach, integrate into literacy blocks, and enjoy social studies.
We work with your curriculum experts to develop an implementation plan.

OUR FORMATS

We offer face-to-face professional development sessions. We tailor every PD to your district, school, and grade-level needs. Virtual professional development is available - live or recorded. Professional development is available for teachers, instructional coaches, administrators, district staff, and other stakeholders.

OUR PD ACTIVITIES

We provide hands-on activities to allow participants to create classroom samples (make & takes).
We guide attendees through Analytic Orange's curriculum, educational foundation, and approaches.
We provide teachers with more ideas and suggestions for their "toolboxes."
We address scaffolding, modifying, and adapting the curriculum for different learners.

OUR TRAINERS

We are all former classroom teachers with years of experience. We have worked with students who are English Language Learners, who have Individual Education and Behavior Plans, who have 504 Plans, medically fragile students, and more. Each trainer has five or more years of experience as PD Trainers to educators across the western hemisphere.
