

Roller Coaster Birthday Party

Treasure Island Rescue

Troll Bridge

Lost Marble Lift

Professor Stemplestien has lost his marbles!

High in the sky

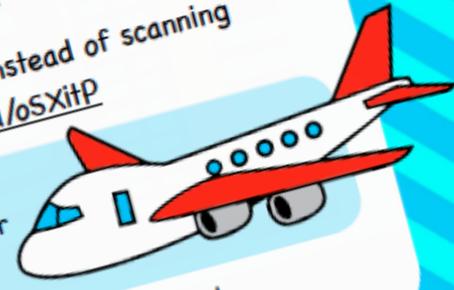

Air Show Competition

The upcoming "Air Show Extravaganza" needs airplanes! Scan this QR card to watch a short video. It will give you the details of your challenge and explain the science behind it!

You could type this url in instead of scanning the QR code: <https://goo.gl/oSXitP>

Materials:  
(3) 5 Sheets Card stock  
5 Sheets Printer Paper  
Scotch Tape (1 roll)

# Take Home STEM Projects

# Thank You

for downloading this STEM resource!!

This resource includes a LOT of content. Each task card has a QR code (and a link) that goes to a video that lays out a STEM challenge and then explains the science behind the activity. There is also an EDITABLE worksheet and STEM process poster!

These STEM task cards are perfect for emailing to parents so they can EASILY do STEM activities at home with their kiddos! They simply choose a challenge, watch the fun and educational video, sketch out their design, build, and answer the response questions on their worksheets. In addition, students can reference the included STEM process poster as they design and build. They could even take pictures of their creations and send them to you electronically!

## **The materials needed for these activities:**

\*Note, if you don't have all of the materials, get creative and substitute them with what you do have!

Pencils  
Straws  
Pipe Cleaners  
Paper and/or Card-stock  
Note Cards  
Masking Tape / Scotch Tape  
Play Dough  
Marbles & Ping-Pong Ball (or similar)  
Paper Clips  
Popsicle Sticks  
Paper Cups of some sort  
Pennies  
Dental Floss  
Tree Twigs  
Rubberbands

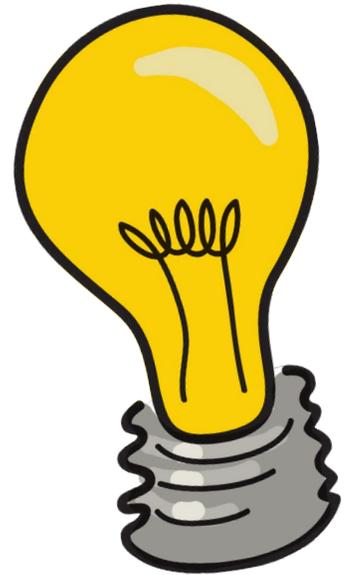

This resource is adapted from my STEM Stations Activities Resource. The videos reference a "STEM BOX", which is a box of supplies that a teacher would pre-stock and have ready for kids to work on in a student-lead group. The STEM Stations resource also comes with detailed worksheets, picture examples and STEM Box labels.

Please feel free to email me  
at any time with any questions  
or concerns regarding this  
resource! -Josh

# STEM Engineering Process

## ASK

What is the challenge?

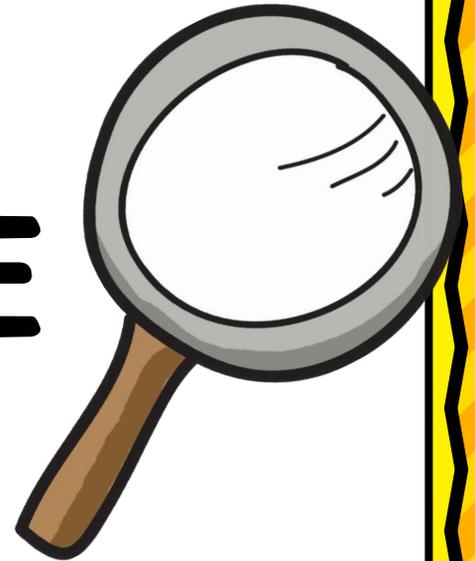

## PLAN

How are you going to solve it?  
Brainstorm ideas!

## CREATE

Follow your plan.

## TEST

Find out how well your plan worked!

## IMPROVE

There is always room for improvement.  
Revise your plan and try again!!

# Air show Competition

The upcoming "Air Show Extravaganza" needs airplanes!

Scan this QR card to watch a short video. It will give you the details of your challenge and explain the science behind it!

You could type this url in instead of scanning the QR code: <https://goo.gl/oSXitP>

**Materials:** 5 Sheets Card stock  
Straws (3) 5 Sheets Printer Paper  
Paper Clips (5) Scotch Tape (1 roll)  
Note Cards

\*Note, if you don't have all of the materials, get creative and substitute them with what you do have!

# High in the sky

Help a young architect build a really high tower!!

Scan this QR card to watch a short video. It will give you the details of your challenge and explain the science behind it! You could type this url in instead of scanning the QR code: <https://goo.gl/YkPX2H>

## Materials:

Straws (20)

Pipe Cleaners (20)

Note Cards (10)

Masking Tape (1 roll)

Play Dough (1 container)

Paper (5 sheets)

\*Note, if you don't have all of the materials, get creative and substitute them with what you do have!
