Find the volume of the composite figure.

1.

$V =$ _____

2.

$V =$ _____

On Your Own

Find the volume of the composite figure.

3.

$V =$ _____

4.

$V =$ _____

5. Mr. Alcorta's class built this platform for a school event. They also built a model of the platform in which 1 foot was represented by 2 inches. What is the volume of the platform? What is the volume of the model?

6. Patty added the values of the expressions $2 \times 3 \times 11$ and $2 \times 3 \times 10$ to find the volume of the composite figure. Describe her error. What is the correct volume of the composite figure?

Problem Solving · Applications

Use the composite figure at the right for 7–9.

7. As part of a wood-working project, Jordan made the figure at the right out of wooden building blocks. How much space does the figure he made take up?

8. What are the dimensions of the two rectangular prisms you used to find the volume of the figure? What other rectangular prisms could you have used?

9. **MTR** If the volume is found using subtraction, what is the volume of the empty space that is subtracted? Explain.

10. **WRITE**  *Math* Explain how you can find the volume of composite figures that are made by combining rectangular prisms.

11. A composite figure is shown. What is the volume of the composite figure?

Volume = _____ cubic centimeters
