

Grizzly Cubs Club (KCLUB)

The children in Kindergarten will be picked up from their groups each day and will walk together to the K-Club enrichment area. They will take attendance and have snack before we begin our daily enrichment. The children will participate in two 30-minute enrichment classes that are centered around a weekly theme. At the end of the day, the kids will have an opportunity to play in the centers stations. The children will have special events theme parties on Fridays.

Homework Center

Homework is an important part of your child's experience. Supporting good homework habits requires a joint effort. The EDEP homework center is open Monday-Thursday from 3:00-5:00 pm. The homework center teacher will monitor completion of homework and will help answer questions to the best of their ability, however we will not grade homework. Please note that we are not a tutoring service.
