

Pre-k Post

January 15, 2021

This week has been all about buildings. We designed and made our own buildings with foam shapes, popsicle sticks, cubes, Legos, bristle blocks and cardboard blocks. We also watched buildings being built on YouTube. We learned about tools and safety gear that builders use on the job. We practiced hammering golf tees into foam and a nail into wood. We even measured things around our classroom with a tape measure. We also dressed as builders as we worked. It's been a fun week.

In math, we worked on numbers and counting and making patterns. Our letters this week were Dd and Pp. We are continuing to make our alphabet book. We can't wait to show you the finished product in a few weeks. The weather this week did not allow us as much outside play as we like, but we enjoyed playing and exercising in our sensory room.

Next week, we will continue our study of buildings.

Menu:

M: No school

T: No school

W: corndog, corn, banana, milk

TH: soy butter and jelly sandwich, salad, apple slices, milk

F: ham and cheese stuffer, carrots, grapes, milk

Dates to Remember:
