

# Pre-K Post

November 13, 2020

---

Every week just keeps getting better and better with our awesome four! It is a pleasure for us to work with these precious children. Thank you for sending them back to school! Their daily growth and development are so exciting to see.

We continued with our tree unit as we focused on trees that bear fruit and nuts. When surveyed, we discovered that apples are the favorite fruit of the class. We tasted applesauce, apples and oranges and we made apple blossoms from tissue paper for our class tree. Our letters this week included: a, b, c and d. We did several letter activities each day as we focused on each letter. Our colors were pink, white, red and blue. Blue is everyone's favorite color. We did a lot of coloring, tracing, painting and cutting. During read-aloud time, we read the books, Henny Penny, Trees Count and Chicka Chick Boom Boom.

In math, we counted and identified numbers to 12. We listened for sounds of different items shaken together. Then guessed what the items might be and counted them. We stayed active with following the leader and action words.

## Menu:
