

## Pre-K Post

November 6, 2020

We are having a great time as we continue to learn about trees. We explored trees and tree parts. We collected different leaves and made leaf rubbings and bark rubbings. We learned about deciduous trees and evergreen trees. We discovered lots of interesting things that grow on trees, like moss and fungi, and food that grows on trees, like fruit and nuts. We learned about the many different animals that live in or around trees and the types of homes they build there. Our discovery web continues to grow (on our whiteboard) as we learn and discover more about trees. Our books this week included, Henny Penny, When the Monkeys Came Back and The Grouchy Ladybug. They all feature something about trees.

We continue to work on phonemic awareness through poems and songs with rhyming words, counting word parts, and letter identification. In math, we played counting games, counted objects and matched the amount to the correct numeral, and counted and identified numbers to 10. We played the game Sparky to help us with our shapes, colors and taking turns.

Since our color days were interrupted by Red Ribbon/Bully Week, we are going to start our color days over: **M-Pink, T-white, TH-red, F-gray**. We will begin moving through the alphabet with a letter each day using our Handwriting Without Tears workbooks and other engaging activities.

### Menu:

M: soybutter and jelly sandwich, chips and salsa

T: Turkey ham and cheese croissant, carrots

W: No School

TH: yogurt cheese plate, grape tomatoes

F: turkey ham and cheese lunch kit, carrots

\*Milk and fresh fruit is served with each meal.

### Dates to Remember:

Wednesday, 11/ 11: Veterans Day Holiday

November 25-27: Thanksgiving Holidays

Have a great weekend!!
