

Sight-Word Fun Flaps

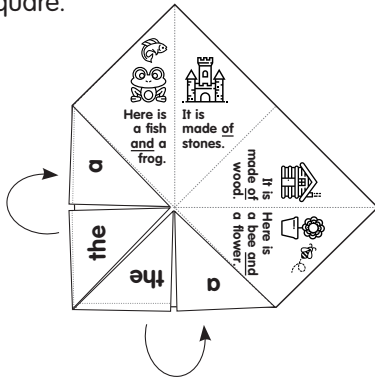

These easy manipulatives make teaching sight words tactile and fun!

Folding Directions

1. Trim off the top part of the Fun Flap page.
2. Place the Fun Flap on a flat surface with the blank side facing up.
3. Fold back the four corners along the solid lines so that they touch in the center of the square.

4. Turn over the Fun Flap. Fold back the corners again so that they touch the center of the square.

5. Fold the Fun Flap in half.
6. Place your right thumb and index finger inside the two right flaps.

7. Place your left thumb and index finger inside the two left flaps.
8. Open and close the Fun Flap by moving your fingers.

Using the Fun Flaps

1. Partner A holds the Fun Flap in a closed position so that the points touch and asks partner B to choose one of the four featured sight words and a number from 1 to 10.
2. Partner B chooses a sight word (e.g., *the*) and a number (e.g., 6).
3. Partner A opens and closes the Fun Flap that number of times, and invites Partner B to find the same sight word on one of the four interior flaps.
4. Partner B points to the sight word (*the*) and reads it aloud.
5. Partner A lifts the flap to reveal the sight-word sentence and a corresponding picture (*Look at the dog*), and invites partner B to read it.
6. Partner B reads the sight-word sentence aloud. Tip: Partner A can provide help, if necessary.
7. Partners A and B switch roles.
