

DISABILITY AWARENESS WEBINAR

The first two weeks of October are Disability History and Awareness Weeks! This webinar is designed to provide participants with an overview of disabilities.

In Florida, children who have special learning needs are called exceptional students. Exceptional students include children who are gifted and children who have disabilities. Children who are considered gifted are those children with superior intellectual development and who are capable of high performance. The purpose of exceptional student education (ESE) is to help each child with an exceptionality to progress in public school and prepare for life after school.
