2018 –19 Professional Learning Plan

Title II School Allocation: \$4,991.25

TEC School Allocation: \$5,981.25 (80% \$4785.00)

Needs Assessment

1. How are student needs identified? (what data did you use?)

We used two groups to identify our needs; we first looked at our “highest needs” 25% and our “high” level 2 FSA ELA and Math students.

2. How will the students’ needs inform the professional learning needs for teachers and school leaders?

Data has shown that students need more one to one or small group settings to ensure mastery on benchmarks. In addition, we’d like to offer varied learning styles for our students who may need more than a traditional classroom setting. This guides us in needing more diverse instructional practices.

3. What services will be offered?

We are encouraging participation in the Kagan Win-Win Discipline training, the Future Education Technology Conference, the Florida American Choral Directors Association Conference, Florida Association of School Resource Officers Conference.

4. How, Where, and by Whom will the services be provided?

How (workshop, conference,..)	Where	Provider
Kagan Win-Win Discipline	Tallahassee, FL	Kagan
Future Education Technology Conference	Orlando, FL	FETC
Florida American Choral Directors Association Conference	Stetson, FL	FLACDA

5. How will the services be assessed to measure the results of the activities funded?

We are expecting to see our discipline issues in 6th grade decline, and those teachers will train others in our vertical teaming meetings so the discipline is consistent. Because we are a 1:1 school, keeping up with the latest technology offerings is vital for our students.

6. How are the decisions about the services & delivery of services determined?

We are a SITE based school and those decisions are made by the SITE members after considerations are received from each department.

Title II Allocation Budget - Project # 9CT01

Description of Service to Purchase	Est. Cost	Date you plan to purchase
Kagan Win-Win Discipline	\$876	January 2019
Future Education Technology Conference – 4 teachers	\$4000	January 2019

TEC Allocation Budget - Project # 35001 A0000

Description of Service to Purchase	Est. Cost	Date you plan to purchase
