

### **Patrol Club:**

**The program assists students by providing leadership, citizenship and a safe environment for younger children around our school. The students help the adults by opening/closing doors and gates, they take students to their classrooms and monitor appropriate behavior in the hallways and display the United States Flag. They also assist guests as needed when events are scheduled.**

### **STEAM (Mini Makers) Club:**

**Mini Makers centers around hands on projects in the areas of science, technology, engineering, art and mathematics (STEAM). Each club meeting begins with a read aloud story that ties into the project of the day. Mini Makers is for 1st and 2nd grade students.**

### **Student Government Association:**

**The purpose of the SGA (Student Government Association) is to help solve school problems to make the school a better place to learn, work on school/district-wide projects that help the community, and to work on fun activities which promote school spirit for the whole school. Each classroom representative (Grades 3-5) is elected by students and the teacher from one class. He/She represents the interests and feelings of the class in SGA's decision making. SGA will meet once a month.**

### **Yearbook Club:**

**The Yearbook Club is a student group that chronicles the events of the individual school year. These students use iPads, yearbook software, PicCollage, and other software to provide the formatting for a print only**

**edition of the yearbook. The Yearbook Club members are the eyes, historians, and creative geniuses that freeze a moment in time and memories for years.**

#### **Broadcast Bunch:**

**The Broadcast Bunch is Chaires' on-site news crew that brings everyday happenings and events reported straight to the Chaires Community. This student led group creates daily segments, records, and produces the daily news show using iPads, iMovie, PicCollage, YouTube and other programs. The Broadcast Bunch is a cornerstone of our school, because after all, Chaires - It's where community begins!**

#### **Mini Mu**

**Mini Mu is a club for students who excel in mathematics. This club will meet every other week after school and work towards attending math competitions. During the meetings we will be practicing high level math skills and developing a love for math.**
