September 07, 2021

Dear School Board Members and Citizens of Leon County,

I am pleased to present the Leon County School Board budget for Fiscal Year 2021-2022. The total budget is \$564 million and includes the General Fund, (operating budget) of \$336.3 million. This fund is 59.6% of the total budget. The Capital Projects Fund is the second largest fund at \$81.8 million and represents 14.5% of the overall budget. The remaining balance includes Special Revenue Funds at \$79.2 million, and Debt Service \$66.8 million.

The success of students is our common goal, and this budget ensures our efforts toward this goal are properly funded. This budget supports 52 schools, including 22 elementary, 2 kindergarten through grade 8 schools, 8 middle schools, 6 high schools, 1 vocational-technical college, 1 adult education center, 5 charter schools, and 7 special/alternative schools. It will provide educational services for 32,000 students in kindergarten through the 12th grade, as well as approximately 3,500 adult students at the Lively Technical College. It will provide payment for over 2,200 teachers and 450 aides who work directly with students in the classroom. The budget will enable over 2.6 million meals to be served this year, and pay for transportation so nearly 12,000 students are safely transported to and from their homes to schools over the 180-day school year. Over \$26 million will be contributed towards over 4,100 employee health insurance premiums at an average cost per covered employee of \$6,500. Finally, the budget will allow the School District to maintain and make improvements upon almost \$726 million of assets, including \$601 million towards buildings and equipment on over 1,200 acres of School Board property.

Student achievement is an element that defines a school or school district. High levels of student performance indicate our schools are providing excellent instruction, vital partnerships are working, and the community is invested in its school system.

For the 2021-2022 school year, our top priorities will be:

- Ensuring the safety and well-being of our students.
- Fostering student academic achievement and performance.
- Strengthening relationships and partnerships with our students' families and our local community.

As stated earlier, student success is the centerpiece of how we measure ourselves and how we expect to be assessed. It is an important benchmark, but not the only one. How well the District is managing your tax dollars includes; running a transportation system efficiently; providing meals to students; and developing alternative strategies for students who struggle in conventional educational settings. All of these are important pieces of the overall puzzle.

Leon County Schools is constantly looking for ways to improve, and we always do better when the community is involved. The FY 2021-2022 budget is designed to: (1) meet student educational and school operating needs (2) have the flexibility to adapt to changing conditions during the year, and (3) provide a substantial "rainy day" reserve. Budget development, review, and consideration were completed with a detailed review of every revenue and expenditure category within the context of the District's mission, goals, and financial policies. I

hope this document will serve the public as a valuable source of information about the District’s finances, operations, accomplishments, and future direction. It is with these goals in mind that I hereby submit and recommend this budget for the Leon County School Board for Fiscal Year 2022 (2021-2022).

Rocky Hanna
Superintendent of Schools

2757 W. Pensacola Street, Tallahassee, FL 32304 • Phone (850) 487-7100 • www.leonschools.net

Building the Future Together

SUPERINTENDENT HANNA AND LCS SCHOOL BOARD MEMBERS

SCHOOL DISTRICT OF LEON COUNTY, FLORIDA

VISION

Leon County Schools will provide an engaging, safe and respectful learning environment that fosters effective communication, collaboration, and critical thinking while creating productive citizens who value diversity and positively contribute to society.

MISSION

The MISSION of Leon County Schools is to educate, inspire and empower all students to become responsible and engaged citizens who are equipped with the critical thinking skills needed to thrive in our global society.

BUDGET PROCESS

The timeframe for the budget adoption process is mandated by the Truth in Millage (TRIM) guidelines found in Section 200.065 Florida Statute and Chapter 1011 Florida Statute. These guidelines establish tentative and final hearing deadlines, public advertising guidelines (including advertisement format and timelines for public review in newspapers), and final public Board hearing and adoption timelines. The dates set for the Fiscal Year (FY) 2021-2022 budget submission were:

July 22, 2021 - Board Meeting for approval of advertising the budget and proposed millage rates in the local newspaper (Tallahassee Democrat).

July 27, 2021 - Board meeting for first tentative budget public hearing and tentative adoption of the 2022 budget and millage rates.

July 28, 2021 through August 16, 2021 – Board members work with the Superintendent on priorities to be included in the budget prior to the final adoption of the budget.

September 7, 2021 - Board meeting for final hearing and final adoption of the 2022 budget and millage rates.

The Superintendent depends on the professionalism and expertise of the cost center administrators to present budgets that support the Superintendent's and Board's priorities in the most efficient and economical manner.

BUDGET OVERVIEW

The FY 2021-2022 budget consists of five major funds totaling \$564 million under the budgetary authority of the School Board. Florida law requires the District to establish budgets for all governmental fund types. The budgets presented in this book include all governmental funds for which the Board is legally responsible. These funds exist as self-balancing sets of accounts with their own assets, liabilities, and fund equity balances. Each serves a specific purpose in the fiscal operation of the District. Together these funds function like a team to support the fiscal transactions that must occur to finance the daily operations of each school and to ensure the long-term continuation of the entire organization. The budgets presented in this book are organized by fund as follows:

- Governmental Fund Types
 - General Fund
 - Special Revenue Funds (includes Food Service, Federal Programs, Elementary & Secondary School Emergency Relief [ESSER I and II], Coronavirus Aid, Relief, and Economic Security Act –Governors Emergency Education Relief [GEER],) and Special Revenue-Other
 - Capital Projects Funds
 - Debt Service Funds
- Fiduciary Fund Types

BUDGET HIGHLIGHTS

- The total overall FY 2022 budget (\$564 million) increased by \$35 million (6%) from the adopted FY 2021 budget.
- The General Fund budget increased \$1.3 million (.47%) compared to the original FY 2021 adopted budget and planned expenditures are 16% more than the actual operating expenditures for FY 2021.
- Major cost increases for the General Fund include \$10 million related to teacher pay increases and an almost 1% increase in Florida Retirement System contribution of almost \$1 million.
- The General Fund ending fund balance of \$63.5 million was carried forward from FY 2021 into FY 2022 increased from the prior year by \$11.8 million.
- The adopted millage rate of 5.876 assesses \$123.3 million (100%) and is budgeted at \$118.4 million (96%).
- The District did not raise taxes in FY 2022. The adopted millage rate of 5.876 mills is less than the 2021 levied rate of 5.963 mills.
- The operating portion of this levy (3.628 required local effort + 0.748 discretionary = 4.376 mills) is \$91.8 million at 100%, and is budgeted at 96% or \$88 million. The required local effort millage rate of 3.628 mills generates \$76 million at 100% of the levy, and is budgeted at 96% of the levy or \$73 million. The Board is required to levy this millage to receive a matching amount of \$125 million in additional state revenue.
- The capital outlay levy of 1.50 mills generates \$31.5 million at 100% of the levy, and is budgeted at 96% or \$30 million.
- A homeowner with a \$200,000 home that did not increase in assessed value for the FY 2021-2022 and has a \$25,000 homestead exemption will pay \$15.23 **less** for school board taxes than was paid the previous year.

GENERAL FUND

Continued Initiatives

- Continued prior years pay raises for all employees (\$1.75/hr for 1010, LESPA and Exempt) (\$1/hr for teachers and \$3K or raising teachers to new base of \$43,304) from the prior year \$18.6 million
- Continued Additional Funding for Student Activities and the Arts \$1 million
- Continued Deans for every Middle School \$611,000
- Continued \$5 million Emergency Reserve
- Continued School Safety Monitors \$1.3 million
- Continued School Behavior Specialist \$817,000
- Continued Community Partnerships \$207,000

New Initiatives & Major Changes for FY 2021-2022

- Staffing Plan increased by \$7 million
 - Additional staffing units provided to schools to decrease learning losses from COVID
 - Florida Retirement System and Health Care costs increased
- Family Empowerment Scholarship Program increased by \$500,000
 - Increase is anticipated based on the passage of HB 7045
 - Families at 375% of the poverty level, or making just over \$99,000 per year will be eligible
 - The bill increases the scholarship amount to the full amount generated through the FEFP
- Teacher Pay Allocation \$435,000 increase
 - 80% of funds will be used for raising base pay of K-12 classroom teachers and certified Pre-K teachers below \$47,500 (including employer retirement/FICA contributions)
 - These funds will need to be bargained

- District Cost Centers increased by \$1.8 million
 - Created the centralized registration unit
 - Transportation cost increased due to higher fuel prices
 - Increases in FRS and Health Care costs
- \$3.5 million budget reserve to bargain bonuses for staff that did not receive \$1,000 bonus from the Governor

NUTRITION SERVICES/ SPECIAL REVENUE

- Federal revenues increased by \$5.6 million
 - This is based off an anticipated increase in participation
- Beginning fund balance increased by \$700,000
 - This is a result of ESSER II advancement as well as Food and Nutrition Services Emergency Cost reimbursement grant
- Salaries and Benefits increased by \$1.3 million
 - During FY 2020-2021, based on decreased revenues, staff were moved into other positions within the same pay grade and bargaining unit with different funding sources. This budget returns staff to the Nutrition Services program in anticipation of increased participation as students return to school

ESSER/SPECIAL REVENUE

- The District portion of Elementary and Secondary School Emergency Relief (ESSER) funds were fully expended during the prior fiscal year. Funds budgeted for FY 2021-2022 belong to our Charter Schools.
- District Funds were used to:
 - Provide additional teachers to keep schools with the largest percentage of returning students to brick and mortar class sizes small and socially distant
 - Provide additional Custodial Staff to each school for an additional 4 hours daily to help ensure common touch areas remained cleaned and sanitized
 - Procure a Learning Management System and Standardized FLVS Instructional Curriculum to address parent/student concerns with navigating multiple platforms and lack of uniformity
 - Establish a parent helpdesk and additional helpdesk staff to support the Digital Academy after normal business hours.
 - Provide laptops for teachers with microphones and cameras to ensure all teachers were able to utilize video conferencing platforms
 - Provide Zoom and Skype (backend video conference for Microsoft Teams).

OTHER CARES ACT RELIEF FUNDING/SPECIAL REVENUE

- Lively will receive \$4.2 million in direct Federal funds under the Higher Education Emergency Relief Fund (HEERF)
 - HEERF includes a Student Portion and an Institutional Portion:
 - The Student Portion can be used to defray the cost of attendance including emergency costs due to COVID-19, such as: tuition, food, housing, health care (including mental) and child care
 - The Institutional Portion can be used to defray expenses associated with COVID-19 including lost revenue, reimbursement for expenses already incurred, technology costs associated with a transition to distance education and faculty and staff trainings

ESSER II/SPECIAL REVENUE

- ESSER II – Anticipated award of \$29 million. Below is a tentative plan for expenditure pending further information from FLDOE on allowable spend
 - Majority of funds allocated by the Legislature within the FY 2021-2022 General Appropriations Act
 - \$1.2 million to find missing children
 - \$6 million to accelerate learning and mitigate learning losses related to COVID-19
 - Additional teacher units for increased interventions and pullouts
 - Additional intervention materials
 - Florida Virtual School (FLVS) content
 - \$1.5 million for technology
 - Reimbursement for spare Chromebooks
 - Enhanced firewall
 - \$7 million in lump sum
 - Summer 850 program
 - Additional teacher units to mitigate learning losses due to COVID-19
 - \$13.8 million was advanced to the District and Charter schools. The District’s portion was \$12.9 million
 - \$2.5M was used to mitigate the Food Service deficit resulting from decreased meal participation during FY 2020-2021 due to COVID-19
 - \$10.4 million Chromebook lease payoff

CAPITAL IMPROVEMENT FUNDS

- Anticipated sales tax revenues increased by \$2 million
- Anticipated local capital improvement revenues increased by \$1 million
- Continued Furniture Fixtures and Equipment (FF&E) allocations for schools \$1 million
- Increased carpet replacement allocation to \$1 million
- Continued athletic field replacement allocated at \$1 million
- Major Planned Projects include:
 - W.T. Moore and Sealey roof replacements
 - Hartsfield cafeteria remodel
 - Griffin renovation

TRUST FUNDS/VOLUNTARY EMPLOYEE BENEFIT TRUST FUND

- Rebate from Capital Health Plan (CHP) was deposited and will be used to offset employee contributions

(NOTE: Budgeted amounts listed in the format of ‘\$13 million’ or ‘\$6.5 million’ are approximations. This avoids the redundant use of the word ‘approximately’ throughout the Executive Summary, making the document less cumbersome to read.)

2021-2022 BUDGET SUMMARY

The proposed operating budget expenditures of the District School Board of Leon County, Florida are 16.4% more than last year's total operating expenditures.

EXPENDITURES

GENERAL FUND

General Fund expenditures of \$317.2 million account for 69.2% of budgeted expenditures in all funds. The total General Fund budget is \$336.3 million. The General Fund is the one most discussed publicly because it pays for day-to-day operations, including school teachers, principals, assistant principals, instructional aides, and most non-school District administration and staff. These day-to-day activities directly affect parents and students during a school year, thus causing more discussion surrounding these activities.

Budgeted expenditures of \$217 million directly support our classrooms; \$192.6 million for classroom instruction and \$14 million for support services that have a direct impact on the classroom, such as guidance counselors, social workers, instructional media services, instruction and curriculum development services, instructional staff training, and instructional technology all account for 68.4% of budgeted expenditures.

Student Transportation of \$11.1 million and School Administration of \$22.7 million account for 10.7% of the budgeted expenditures. School administration includes each principal and the associated staff required to run the daily school operations.

Operation of Plant expenditures of \$22.2 million (7%) consist of activities concerned with keeping the physical plant open. These costs include utility costs (phone, sewage, water, and electricity), custodial costs (such as cleaning and disinfecting), ground maintenance, telephone service, and insurance costs of school buildings.

Maintenance of Plant expenditures of \$11.5 million (3.6%) consist of activities to keep the grounds, buildings, and equipment at an acceptable level of efficiency through repairs or preventative maintenance.

Administrative Technology expenditures of \$5 million (1.6%) include technology support at the District level to maintain the student information system and the business support systems, such as personnel, payroll, finance and warehousing.

Central Services expenditures of \$15.8 million (5%) include activities to prepare student statistical data, writing, editing, disseminating information to the public and staff, recruiting and placement of staff, staff transfers, health services, staff accounting, planning, and policy development.

Another method to analyze expenditures is to compare the various categories (objects) of expenditures.

Salaries and benefits account for \$233 million (73.5%) of all operating expenditures.

A 1% salary increase with benefits for all employees is \$2.3 million.

There are approximately 4,500 full time employees, inclusive of 2,300 instructional employees.

SPECIAL REVENUE FUNDS

These funds totaling \$79.2 million consist of Nutrition Services (\$14.7 million total budget), Federal Programs (\$36.7 million total budget), and Coronavirus Aid, Relief and Economic Security (CARES) Act funds (\$26.7 million).

Nutrition Services salaries and benefits totaling \$8.1 million are 55.2% of the Nutrition Services Program total expenditures. The materials and supplies expenditure is \$5.7 million and comprises 39% of total expenditures. The remaining balance of \$850,000 is 5.8% of expenditures and pays for energy, purchased services, and capital outlay.

Federal Programs expenditures total \$36.7 million. The majority of these expenditures are \$25.4 million for personnel salaries and benefits representing 67.6% of the total expenditures, and purchased services totaling \$5 million, 13.8% of the expenditures. Services purchased in this program include specialized testing and supplemental instruction. Materials and supplies, capital outlay and other expenses total the remaining \$6.3 million, 18.6% of expenditures.

This fiscal year the District again will receive additional funds related to the Coronavirus Aid, Relief and Economic Security (CARES) Act. These funds are currently deposited in three different funds. The first is the Elementary and Secondary School Emergency Relief (ESSER I) funds; with a budget of \$165,000. The second is the Governor's Emergency Education Relief (GEER) fund with a budget of \$4.2 million. The third funds one is the Elementary and Secondary School Emergency Relief (ESSER II) fund with a budget of \$22.3 million.

DEBT SERVICE

The Fiscal Year 2021-2022 budget for Debt Service totals \$66.8 million. Debt Service expenditures of \$27 million are for paying principal and interest on outstanding debt. The budget includes principal payments of \$21.7 million and interest payments of \$5.4 million in FY 2021-2022.

CAPITAL PROJECTS FUNDS

The Capital Outlay fund accounts for building, renovation, maintenance, purchases of school buses, furniture, fixtures and equipment. The School Board has budgeted approximately \$81.8 million for Capital Improvements throughout the school District during FY 2021-2022.

The initial budget is appropriated as follows:

- New Construction & Remodeling: \$27 million (33%)
- Computer Software: \$4.2 million (5%)
- Library Books, AV, Motor Vehicles & Buses: \$2 million (2.6%)
- Furniture/Fixtures/Equipment: \$2.3 million (2.8%)
- Transfers: \$26.4 million (32.3%)
- Land & Land Improvements: \$4.9 million (6%)
- Fund Balances: \$14.2 million (17.4%)

MILLAGE & TAXES

LEON COUNTY ASSESSED TAXABLE VALUE DISCUSSION

The primary mission of the Leon County Property Appraiser's Office is to locate, identify, and appraise (at current market value), all property subject to ad valorem taxes, maintain market value equity on the tax roll, and administer all exemptions in accordance with Florida Statutes and the rules and regulations of the Florida Department of Revenue. The assessed value determined by the Leon County Property Appraiser's Office is used by the Legislature, in tandem with the assessed property values of all 67 Florida School Districts, to determine the Required Local Effort Millage rate to fund the Florida Educational Finance Program. This property value is also used by school districts to assess the 1.5 mill capital outlay rate for capital projects and the 0.748 discretionary millage rate as a source of funding for district operational expenditures.

Part of the mission of the Property Appraiser's Office involves assisting the public (citizens, taxing authorities, and local government) in accessing and utilizing the tremendous real estate database, maps, and other associated information which the Property Appraiser's Office maintains.

The Property Appraiser's Office has established 24-hour online access to its public records, convenient satellite filing locations for Homestead Exemption applications, and extended office hours to include Saturday and after-hours availability.

TEN YEAR HISTORICAL TREND (IN BILLIONS) Leon County Assessed Value of Property

Note: As local tax assessments increase, state FEFP dollars decrease and the required local effort millage is adjusted accordingly.

TAX INFORMATION

Ad valorem property taxes are the largest and most critical single source of local revenue to the school District. Each year, the School Board is required to assess its educational requirements and needs. Property tax millage is levied for the general operating fund, the capital projects, and to retire the debt service. The following pages represent the School Board millages required to run the school District; the technical “legally required” millage rollback calculation which causes most of the confusion with citizens; and what each of the school District millages generate in actual operational dollars.

MILLAGE CALCULATION

EXPLANATION OF ROLL BACK RATE

Property taxes are based on a unit called a “mill.” A mill is the rate used to calculate taxes based upon assessed property value. One mill is equal to \$1.00 per \$1,000 of assessed property value.

The “Roll Back Rate” is found in Chapter 200, Florida Statutes. The method of calculation is determined by the Florida Department of Revenue. The “roll back rate” does not include any Debt Service millage rates.

The “roll back rate” is the millage rate **on the new tax roll** that will generate the same total dollars raised in the prior year.

The **total** adopted FY 2022 millage rate of 5.876 decreased by 0.087 mills from the 2021 assessed millage of 5.963.

GENERAL FUND

GENERAL FUND BUDGET FISCAL YEAR 2021-2022

SOURCES AND USES OVERVIEW

The basic day-to-day resources of the School District are accounted for in the General Fund. From a perspective of services rendered, the resources of the General Fund are used to conduct educational and supportive services programs. General Fund operating expense examples include: salaries of employees; fringe benefits of employees; contracted services with vendors; materials and supplies to carry out operations; instructional materials and textbooks; professional fees; legal costs; utilities; transportation costs of moving children to and from school; and custodial services to maintain clean and healthy schools.

The total FY 2021-2022 General Fund budget of **\$336.3 million** is **\$1.6 million (.47%)** more than the adopted FY 2021 budget and **\$350,000 more (.10%)** than the end of year FY 2021 amended budget. Total estimated revenues (including transfers) for FY 2021-2022 are **\$273 million** and proposed expenditures total **\$317 million**. The fund balance figures include a committed balance of \$1.2 million for Non-Spendable (inventory); Assigned balance of \$5 million for the emergency fund; and an unassigned balance of \$12.8 million.

SOURCES OF FUNDS

Resources of the General Fund are derived from local, state and federal sources. Approximately 34.5% of the total estimated revenue base is derived from local sources (\$94 million), comprised primarily of property taxes, fees, interest income and indirect cost reimbursements and transfers from other funds. State sources account for approximately 64.4% (\$171.1 million). Federal sources account for less than 1% (\$295,000). A significant portion of the State revenue received is restricted, (See "Categoricals/ Grants") and must be spent using specific criteria.

USES OF FUNDS

The General Fund budget's **total expenditures** are **\$317.2 million**. The **majority** of expenditures is for **salaries (\$178.8 million)** and **employee benefits (\$54.4 million)** totaling **\$233.3 million**, and is **73.5% of total** estimated expenditures. From a functional (type of service rendered) approach the sum of expenditures for instruction (\$192.6 million) and instructional support (\$24.4 million - pupil personnel, instructional media, curriculum development, in-service training, and instructional related technology), totals \$217 million (68.4% of total expenditures). School administration, which includes primarily principals and assistant principals, is \$22.7 million (7.1% of expenditures). Support services (\$60.7 million - operation of plant, maintenance, custodial services, transportation and central services), and other support services (\$16.7 million – Board of Education, general administration, facilities acquisition and construction, fiscal services, administrative technology services and community services) account for approximately \$77.4 million (24.4%) of the budgeted expenditures.

BASIS OF ACCOUNTING

The financial transactions of the General Fund are recorded on the modified accrual basis of accounting. Under this concept, revenues are recognized when they become measurable and available to finance current operations; expenditures are recorded when the liability (obligation to pay) is incurred, and is expected to be paid within the normal operating cycle. A liability is incurred when the delivery of goods or services is complete.

The effect of this modified accrual basis influences the projections for property taxes, interest income, indirect costs and other cash flow considerations, including salaries, employee benefits and other major expenditure obligations.

GENERAL FUND ESTIMATED REVENUES

The following comparisons are between the original 2021 adopted budget and this original 2022 adopted budget.

Revenue projections, including transfers of \$7.3 million for fiscal year 2021-2022, are \$272.8 million. This is a net revenue decrease of \$11.1 million, consisting of a decrease in the State revenue of approximately \$8 million, and a decrease in the local revenue of \$3.1 million.

LOCAL SOURCES

AD VALOREM (PROPERTY TAXES)

The estimate for Ad Valorem Taxes is based on the certified tax roll provided by the county tax collector's office, adjusted for exempt uncollectible taxes during the budget year.

Total property taxes in the FY 2022 General Fund are estimated at \$88.2 million, which is \$1.7 million more than actual collections in FY 2020-2021. Taxable property is reassessed by the tax assessor's office and in accordance with their timelines and criteria. The District will receive approximately \$73 million of Required Local Effort (3.628 mills), which is required by the state to be levied to receive approximately \$125.9 million in state funding. The supplementary discretionary millage of 0.748 mills will provide \$15 million.

Overall property taxes decreased as the Required Local Effort millage rate decreased by 0.087 mills; however, the assessed property value increased \$796 million, resulting in the \$1.7 million increase. These property taxes support day-to-day operational expenses of the school District and the amounts are budgeted at 96% of total Ad Valorem taxes. This is a Department of Education requirement for all Florida school district budgeting.

OTHER LOCAL SOURCES

Included in this category are earnings on investments, indirect costs, course fees and miscellaneous other revenues.

STATE SOURCES

FLORIDA EDUCATION FINANCE PROGRAM (FEFP)

The total FEFP revenue is \$198.3 million, funded with state (\$125 million) and local property tax required local effort (\$73 million).

CATEGORICALS AND OTHERS

A "Categorical" in FEFP jargon is an appropriation of revenue that can only be spent for a specified purpose. This source represents funding for instructional materials, transportation, Pre-K education, state license tax, class size reduction, Teacher Salary Allocation, and other special categories totaling \$56 million. It should be noted that Safe School Programs, Supplemental Academic Instruction, Transportation, Teachers Lead, Digital Classrooms, and the Reading Instruction program were funded by the Legislature for 2021-2022 as quasi-categorical programs within the FEFP funds. They are treated the same as categoricals because the funds must be spent for the specific purposes defined by each program.

FEDERAL SOURCES

The projection of \$295,000 for this category is based on prior year funding derived primarily from ROTC Funds.

FISCAL YEAR 2021-2022 BUDGET EXPENDITURES

MAJOR BUDGET ASSUMPTIONS - The overall assumptions used to develop of expenditure estimates are derived from the Board Goals, School Improvement plans, objectives and strategies, State-mandated curriculum requirements, enrollment projections, long-range plan priorities, fixed costs and other operational priorities. In the discussion that follows, major budget assumptions are presented by object of expenditures.

- **Salaries** - The budget for salaries is influenced by a combination of factors such as:
 - School Site Salaries – Comprised of teachers, teacher aides, Principals and Assistant Principals, other instructional support staff, secretarial, clerical and custodial positions. Expenditures in this category are budgeted based on projected enrollment and required positions identified by the Principals, Executive Directors, and Assistant Superintendents. Average salary by job type is used to compute budgeted dollars.
 - Non-School Site Salaries – Comprised of instructional support personnel – administrative, secretarial, clerical, and service technicians – budgets in this category are developed based on justification of need and represent actual salaries based on Board-approved salary schedules.
 - Vacancies and requests for new positions are evaluated to assess costs, benefits, and applicability to classroom support.
 - Fringe Benefits – Retirement and Social Security are based on published rates and applied to each calculated unit and position. Non-retirement benefits are based on historical enrollment and the number of budgeted positions. Health insurance costs are calculated based on actual participation rates, and actual Board costs, then converted to a standard per employee health cost.
- Purchased Services – Expenditures in this category represent a combination of fixed and variable cost components.
- Fixed Costs – Labeled fixed costs due to the nature of the items involved such as utilities, insurance and certain contracted services. The requirement for resources is determined by factors normally outside the School Board’s control. The budget is based on historical trends adjusted for estimated effects of inflation on contracts, and actual rates for insurance.
- Other Purchased Services – Excluding the fixed or mandated costs above, the remainder of purchased services represents requested uses of per pupil allocations to schools for administrative and departmental operating costs.
- Supplies and Materials – Included in this category are textbook allocations funded by the State. These funds also include the supply money given to schools for distribution to teachers to support their classroom educational activities. The beginning of the school year coincides with several other statutory financial requirements. As a result, adopted budget allocations in this category also include school “flex” or operating budget allocations, which schools can transfer to other categories (excluding salaries and benefits) through the budget amendment process as needed throughout the year.
- Capital Outlay – Total funds in this category represent requested uses of per pupil allocations to schools and approved support department requests. Because of the increase in demand for computer technology and related software, a large portion of the budget is allocated for these needs.
- Other Expenditures – The budget for this category is primarily for school accreditation expenses, miscellaneous uses of per pupil allocations for schools, and system-wide fees such as bank fees and other expenses.
- Inter-Fund Transfers – Comprised of transfers between funds, such as the money transferred from capital outlay to the operating budget to pay off lease-purchase obligations.

GENERAL FUND NARRATIVE OF EXPENDITURE APPROPRIATION DIFFERENCES FINAL BUDGET FISCAL YEAR ENDING JUNE 30, 2022

The entire General Fund Budget is \$336 million. The following General Fund Exhibits items on pages 24-26 highlighted the main differences between last year and this year.

The FY 2021 Staffing Plan of \$181 million, representing 53.8% of the General Fund, is \$7.8 million more than the original adopted Staffing Plan in FY 2020-2021. This increase is primarily the result of raising the starting teacher salary, as well as increased retirement and healthcare costs. The Plan is based on allocating units – teachers and clerical units are equitably allocated based on the number of students at the schools; special program needs are also taken into consideration. Principals are consulted to ensure each school’s unique needs have been considered. The Staffing Plan works within a total dollar amount for school staffing purposes considered to be fiscally attainable as provided by the Budget Section.

“District Wide Insurances” have increased \$125,000 from \$4.88 million to \$5 million. Based on prior year expenditures, the budget allocation for Worker’s Compensation decreased by \$600,000, Unemployment Compensation increased by \$425,000, and Risk Management Legal Fees increased by \$300,000.

“Charter Schools” in FY 2020-2021 was appropriated \$16.3 million. It will be appropriated \$16.9 million in FY 2021-2022, an increase of \$563,000 due to increased enrollment.

“McKay Scholarships and Family Empowerment Scholarships” are expected to increase to \$4 million, a \$500,000 increase over the amount budgeted in FY 2020-2021.

“Contracted/Miscellaneous Services” increased \$15,000. Changes included Board legal fees decreasing by \$25,000, from \$525,000 to \$500,000. Internet connectivity for instructional technology increased by \$200,000 to \$1.2 million and CPA Firm Audits were encumbered last fiscal year and rolled forward.

“Digital Classrooms” decreased by \$208, continuing the pattern of the last several years of moving to eliminate this categorical.

“Teacher Salary Increase Allocation” is funded at \$400,000. This allocation represents the increase over the base funds appropriated in FY 2020-21 that will be bargained to raise the base pay for classroom teachers.

“Turnaround Supplemental Services” are funded at \$248,000. This categorical was created by the legislature during the 2019 Legislative session. The categorical allocates \$500 per FTE for schools based on school grades from the prior year. Funds are to offer services designed to improve the overall academic and community welfare of the school’s students and families.

“Volunteer Pre-Kindergarten” is funded at \$350,000.

“Mental Health Assistance” funds increased \$179,000, from \$1.2 million to \$1.4 million.

“Advanced Placement Funds” of \$1.7 million decreased \$157,000. This funding is received when students pass advanced placement tests.

“I.B. Funds” of \$241,000 increased by \$42,000. This funding is received when International Baccalaureate (I.B.) students pass the courses or pass the final I.B. tests.

“Industry Certified Career Ed” under “Other” remains \$1 million in FY 2021-2022.

“School Resource Officers Contract” for \$1.5 million increased \$88,000.

“Safety Officers at Schools” is funded at \$1.3 million. It pays for deputies to cover elementary schools and other schools not covered by the Leon County Sheriff contract.

“School Age Childcare Fees” at \$2.8 million decreased by \$1.5 million. These are fees generated from the before and after school programs.

The “EM/PM” transfer of \$4.7 million under “Other” is for Emergency Maintenance (EM) and Preventive Maintenance (PM). These are 1.5 mill funds transferred to the General Fund for EM/PM.

Overall “Utilities” are budgeted at \$8.5 million, \$989,000 less than the amount budgeted in FY 2020-2021.

“Restricted Carry Forward Projects” of \$21.4 million have increased by \$1.9 million.

“Carry Forward Encumbrances” of \$1.4 million represents \$928,000 increase from the amount budgeted in FY 2020-2021.

“Bloodborne Pathogens” under “Miscellaneous Budget Items” is budgeted at the same level as prior years and is used to pay for vaccinations that custodians must have for protection against Hepatitis.

“High School Dual Enrollment” budget of \$400,000 under “Miscellaneous Budget Items” is the amount budgeted for the dual enrollment contracts.

“Reserve for FTE Audit Findings” within “Miscellaneous Budget Items” is reserved for any FTE audit issues.

Unrestricted Fund Balance (\$12.8 million) is for illustrating the amount required to demonstrate compliance with Section 1011.051, Florida Statute that 3% of General Fund revenues must be in unrestricted fund balance. The sum of this category and the Emergency Reserve amount of \$5 million provides \$17.8 million to meet the statutory requirements of 3%, which is 5.3%. “Unallocated Funds” in this category represent the amount that is not reserved for any specific purpose. The other amounts are actually reserved for those specific purposes, but are recognized by the Florida Department of Education as being available for the 3 percent requirement because the Board can choose to use these funds to offset a financial emergency, such as a natural disaster or a mid-year statewide budget reduction which occurred in 2008 and 2009.

SPECIAL REVENUE FUND

SPECIAL REVENUE KEY POINTS OF INTEREST

- The total Special Revenue budget is **\$79.2** million; of which the total budget for the Nutrition Services operation is **\$14.7** million and the Federal Programs budget is **\$36.7** million. This fiscal year the district will also receive funds related to the Coronavirus Aid, Relief and Economic Security (CARES) Act. There is one new fund code, in addition to the two added last year. The first is the Elementary and Secondary School Emergency Relief (ESSER) funds; with a budget of \$165,000. The second is the Governor’s Emergency Education Relief (GEER) fund with a budget of \$4.2 million. The new third fund is called the Elementary and Secondary School Emergency Relief II (ESSER II) with a budget of \$22.3 million.
- New for this fiscal year, is the Special Revenue– Other Fund. It is being used to comply with the GASB changes on recording of Internal Funds. An evaluation was completed of all accounts with the bookkeepers’ assistance. It was determined that all Internal Funds are to now be reported as Special Revenue – Other Funds as the District has administrative or direct financial involvement.
- Two Federal projects, Individuals with Disabilities Education Act (\$16 million) and Elementary and Secondary Education Act - Title I (\$11.8 million) account for 76% (\$27.8 million) of the total budgeted revenue for Federal Projects.
- Approximately 55% (\$8.1 million) of Nutrition Services’ estimated expenditures are for salaries and benefits.
- Approximately 66% (\$25.4 million) of Federal Project expenditures are for salaries and benefits.
- The total budgeted Federal Project Grants are \$36.7 million. It is not uncommon for 25 or more different Federal grants to be approved and functioning by the end of the year.
- Federal reimbursements account for 94.7% (\$14 million) of the budgeted Nutrition Services revenue (\$14.7 million).
- In Leon County Schools, 23 public schools (21 traditional schools and 2 charter schools) qualify for Title I, Part A funding based on free or reduced lunch (F/RL) percentages, as determined by an Annual Economic Survey. Public schools with 75.01% or higher F/RL are eligible to receive Title I funding, as per the school district’s Title I plan.
- Supplemental services supported by Title I, Part A are provided for students in school-wide programs at:

Apalachee Elementary	Ruediger Elementary	Woodville K-8
Astoria Park Elementary	Sabal Palm Elementary	Rickards High School
Bond Elementary	Sealey Elementary	Godby High School
Chaires Elementary	Springwood Elementary	Second Chance
Hartsfield Elementary	Fairview Middle School	Success Academy
Oak Ridge Elementary	Griffin Middle School	Governors Charter Academy
Pineview Elementary	Nims Middle School	
Riley Elementary	Ft. Braden K-8	Tallahassee School of Math and Science
- The District has 40 self-contained kitchens in schools and one Central Kitchen assists with bagged meals when needed; stores and delivers bulk ingredients such as milk, spices, oils, and vinegar; and produces granola and taco seasoning that is used district-wide.
- All students will receive both Breakfast and Lunch at no charge for the 2021-2022 school year, thanks to a COVID-19 waiver offered nationally to districts by the United States Department of Agriculture, Food and Nutrition Services.

CAPITAL IMPROVEMENT FUND

CAPITAL OUTLAY KEY POINTS OF INTEREST

- Total Capital Outlay Budget for FY 2021-2022 is \$81.8 million
- Total revenue in the Capital Outlay fund is \$53.2 million (65% of the budget). Within the capital improvement budget the local 1.5 mill property tax levy is anticipated to generate \$30.2 million and the ½ cent sales tax will generate \$21.5 million for FY 2021-2022. Carryover balances from 2020-2021 equals \$28.6 million (35% of the total budget).
- The distribution of expenditures within the Capital Outlay projects budget is \$41.2 million (50% of the total budget) expended for Buildings, Furniture, Fixtures, Equipment, Land Improvements, Land, Computer Software, Motor Vehicles/Buses, and Remodeling and Renovations.
- Total transfers out of Capital Outlay to the General and Debt Service funds equal \$26.4 million (32.3% of the budget). It includes \$975,000 in pass-through PECO funds for Charter Schools. \$2.8 million from the LCIF fund to the General Fund to pay \$1.7 million on property liability insurance, and \$1.1 million for emergency and preventative maintenance. The LCIF transfer also includes \$11.7 million to the Debt Service fund for principal and interest payments on debt. The Other Capital Outlay fund transfers \$3.5 million to the General Fund for maintenance salaries and \$7.4 million to Debt Service to pay towards the Sales Tax Revenue Bonds, Series 2014.

CAPITAL IMPROVEMENT PROGRAM

OPERATIONAL BUDGET IMPACT AND PROJECT LISTING SUMMARIES

This section of the Capital Improvement Program highlights the relationship of capital outlay expenditures to the operational budget.

RELATIONSHIP TO OPERATIONAL BUDGET

The Leon County School Board managed the best it could in its preventative, emergency, and corrective maintenance activities for more than 20 years prior to the General Obligation Bond Issue in 1987 and 1988. Prior to the influx of bond dollars, the District relied solely on the inadequate tax dollars and fluctuating state support for new construction, remodeling, and preventative maintenance of school facilities.

The ½ cent sales tax passed in November 2002 began providing revenue in January of 2003. It continued for 10 years, ending on December 31, 2012. It was projected to generate over \$196 million and was used to construct new schools and renovate existing ones. Two new schools, Mehrdad Pepper Ghazvini Learning Center (\$11.3 million) and Bond (\$14.7 million) were built using these funds. Bond was already an existing school; however, the old school building was completely razed and the new school building was built in the same location. Wesson Elementary was closed and the student population combined with Bond when it was rebuilt. Remodeling and renovation has continued at several schools, including Leon High, Rickards High, Lincoln High, Godby High, Raa Middle, Sullivan Elementary, and Sabal Palm Elementary. The District received \$167.6 million for the period January 1, 2003 through June 30, 2012.

The ½ cent sales tax referendum was presented to voters in November 2012. It passed with 68% voter approval and began in January 2013. It will continue for 15 years, ending in December 2028. A citizens committee determined over a 15-year period the projected capital outlay needs would be \$839.6 million. Projected revenues without the ½ cent sales tax are \$364.2 million, leaving a shortfall of \$475.4 million. Projected sales tax revenue is \$364.2 million over 15 years. The extension of the sales tax would cover 76.6% of the shortfall.

One significant effect of the current capital outlay program has been to substantially reduce the costs of preventative, emergency, and corrective repairs at the renovated schools. Measures such as energy audits to maximize efficiency; incentives to cut costs; and maximum use of capital outlay energy grants, continue to have a positive impact on operational costs, both short and long term, in the District-wide maintenance cost areas.

The graph on page 48 demonstrates how the Capital Outlay Budget supports the operational budget. The total Capital Outlay budget of \$81.8 million relieves this expenditure burden from the operational budget. Capital Outlay pays approximately \$4.8 million of salary and benefits for employees who work on capital outlay-related projects, which allows the General Fund to be spent on other important needs. Expenditures of \$4 million for general maintenance and Safety-to-Life projects save the District millions of dollars in lawsuits that never occur because these problems are eliminated. Expenditures of \$1.1 million for preventative and emergency maintenance are budgeted. A continuous schedule of preventative maintenance saves money over time by avoiding costly repairs and preventing operational issues.

DEBT SERVICE FUND

DEBT SERVICE KEY POINTS OF INTEREST

- The Debt Service Fund (\$66.8 million) is funded 1% from state sources (\$341,000); 4% from federal rebates (\$2.6 million); 36% from transfers from Capital Outlay and General Fund (\$24.4 million); 59% from the fund balance (\$39.4 million) brought forward from FY 2021.
- Expenditures within the Debt Service fund are directed to payments for principal of \$21.6 million (79.97%), interest of \$5.4 million (19.96%) and other fees of \$19 thousand (.07%).
- The interest rate on debt service ranges from 0% to 5.68%.
- Law requires that expenditures for lease-purchases of educational facilities may not exceed 75% of the total 1.50 mills levied, which allows for Leon County Schools to spend a maximum of \$22.6 million. This fiscal year, the District will spend \$14.5 million, of which \$11.6 million is for the lease-purchase of facilities, equating to 64% of the 1.5 mill levy with the amount for facilities equivalent to 51% of the levy. The law exempts lease-purchases for educational facilities entered into before June 30, 2009, making the applicable total \$5.8 million or 26% of the 1.5 mill levy, well below the 75% threshold. These payments are to retire the QZAB Series 2010 and the QSCB Series 2010. Other COPs paid from 1.5 mills are the COPs Series 2016 Refunding of the 2005 and 2006 COPs.
- The 2014 Sales Tax Bond Issue was issued for \$75 million in January 2014 to renovate and add classroom space. The balance will be \$39.1 million after paying \$5.4 million of principal for FY 2021-2022. The expected date this Bond will be retired is September 1, 2027. Over the lifetime of the bond, \$103 million will have been paid, which includes \$28 million in interest payments.
- COP Series 2016 Refunding combined the COP Series 2005 balance of \$14.4 million and the COP Series 2006 balance of \$45.1 million for a refunding issue of \$58.4 million. This refunding will save the taxpayers a net present value amount of \$8.2 million and a nominal amount of \$8.9 million over the course of payments from FY 2017 to FY 2027. It is serviced using 1.5 mill revenue and it will be paid in full on January 1, 2026. The balance will be \$23.7 million as of June 30, 2022 after paying \$5.7 million in principal for FY 2021-2022.
- The Bus Lease Purchase was issued on December 18, 2014 for \$8.1 million. The proceeds were used to purchase 50 compressed natural gas (CNG) buses. It is serviced using 1.5 mill revenue and it will be paid in full on October 1, 2023. The balance will be \$1.9 million as of June 30, 2022 after paying \$952 thousand in principal for FY 2021-2022.
- The District entered into a new four-year lease agreement in the amount of \$10.5 million for the use of 32,000 Chrome Book laptops in response to the COVID – 19 pandemic and the need for online learning options. The first payment of \$2.6 million was made July 2020. With the addition of the Federal CARES Grant funding another \$2.6 million payment was made in June 2021. The lease agreement was scheduled to be retired July 2023; however, through the extinction of the CARES Grant we will be able to pay the remaining \$5.2 million and retire this debt in FY 2021-2022.
- SBE Bond 2020A will be retired in FY 2021-2022.
- After the principal payments of \$21.6 million and interest of \$5.4 million made in FY 2021-2022 the District will have \$119.6 million of outstanding debt as of June 30, 2022.

FIDUCIARY FUND

FIDUCIARY FUNDS OVERVIEW

The fund totals \$43,136 and represents 0.01% of the total budget (\$564 million).

TRUST AND AGENCY

The Board maintains one trust fund, entitled the Frank Stoutamire Trust. The original deposit of \$20,000 is held in trust, only the interest earnings are able to be spent for vocational education.

INFORMATION SECTION

2021-2022 ORGANIZATIONAL CHART

HOW TO READ THE BUDGET

This budget is consistent with the State Department of Education's "RED BOOK" format, which is also known as the Financial and Program Cost Accounting and Reporting for Florida Schools.

FUND:

The books and financial records of the Leon County School Board are maintained using the fund concept of accounting. The National Council on Governmental Accounting and Financial Reporting Principles defines fund accounting as follows:

"A fund is a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations."

To expedite management control and facilitate legislative oversight budgeting, procedures also segregate various funds. The following funds, programs, and activities are included in this document. The numbers beside the alphabetic description are used in the accounting system for coding purposes:

FUNDS: Governmental Funds

100 General Fund

200 Debt Service Funds

300 Capital Projects Funds

400 Special Revenue Funds

700 Proprietary Funds

800 Fiduciary Funds

- (1) **THE GENERAL OPERATING FUND:** These funds cover day-to-day expenses for salaries; benefits; purchased services; energy; materials and supplies; furniture; fixtures; equipment; and other expenses for all employees not hired through a federal grant or food service activity.
- (2) **THE DEBT SERVICE FUNDS:** These funds are used to account for the payment of interest and principal of general long-term debt. These funds incorporate repayment on the voter-approved General Obligation Bond Issue (GOBI), as well as several state bond issues incurred on behalf of the Board. Debt payments on any capital outlay related loans, such as a Certificate of Participation (COP), are also paid in this fund.
- (3) **THE CAPITAL PROJECTS FUNDS:** These funds are used to account for the acquisition or construction of capital facilities.
- (4) **THE SPECIAL REVENUE FUNDS:** These funds are used to account for operations for which revenues have been specifically designated by law or contract. These revenues cannot be diverted to other uses. These funds generally incorporate food service operations and all federal projects.
- (5) **THE PROPRIETARY FUNDS:** These funds are used to account for a government's business-type activities. For example, this fund would be used for an activity that received a significant portion of its funding through user charges.
- (6) **THE FIDUCIARY FUNDS:** Fiduciary funds should be used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs.

REVENUES are categorized by fund, source, and appropriation. Since law usually determines revenues, revenue accounts are structured by source (federal, state, and local) and specific appropriation.

The District receives federal revenue through two methods: (1) Directly from the federal source and (2) indirectly from a second party. Less than 10% of all federal revenue is received directly from Federal sources. Those include student financial aid and revenues for salaries of Reserve Officer Training Candidate (ROTC) instructors. The greatest portion of the indirect federal revenues comes to the District from the Florida Department of Education (FDOE). FDOE is the primary recipient of the funds and it is their responsibility to allocate them to Districts based on approved Federal applications.

State revenue comes to the District in restricted and unrestricted amounts. Restricted revenues, such as revenues specifically for instructional materials or transportation, must only be spent for those purposes. Other restricted state revenues include state grants received upon approval of the grant applications. Unrestricted state revenues may be spent for any lawful purpose. For example, Florida Education Finance Program (FEFP) revenue, generated on a program per student basis, can be used for any lawful educational purpose, as long as 80% to 90% is spent within the program the revenue was derived from.

Local revenues are generated through property taxes. The revenue sources all districts in the state levy without public approval are the Required Local Effort (RLE), Discretionary Millage, Supplemental Discretionary Millage, and the 1.50 mill Capital Outlay. The RLE Millage is set for each district by the state legislature and it must be levied for districts to receive the matching state portion of the FEFP.

Revenues raised from the 1.50 mill Capital Outlay levy primarily may only be used for capital outlay purposes. Exceptions are the ability to transfer a portion of these funds for emergency and preventative maintenance and the ability to use these funds to pay for property liability insurance premiums.

A voter approved ½ cent sales tax is levied for Capital Project purposes. This revenue source ends after December 31, 2027.

Other local revenues include various dues and fees for fee paid programs, gate receipts for extracurricular events, and donations.

EXPENDITURES are segregated for reporting purposes by cost center, function, and object.

COST CENTER is a school, department, or location.

FUNCTION means the action or purpose for which a person or thing is used or exists. Function includes the activities or actions, which are performed to accomplish the objectives of the enterprise. The activities of the school system are classified into six broad areas.

Instruction (5000's) – The activities dealing directly with the teaching of pupils or the interaction between teacher and pupils. Instruction is further classified as Basic (K-12), Exceptional, Career Education, Adult General, Prekindergarten, and Other Instruction. “Other Instruction” is provided for programs such as recreation and leisure courses, Lifelong Learning programs or Adults with Disabilities.

Instructional Support Services (6000's) – Provides administrative, technical (such as guidance and health), and logistical support to facilitate and enhance instruction. Instructional Support Services exist as adjuncts for the fulfillment of behavioral objectives of the instruction functions, rather than as separate entities. The major cost for Instructional Support is personnel, although some supplies and operational costs are generated in Instructional Support Services include Student Personnel Services (Encompasses attendance and social work, guidance services, health services, psychological services, parental involvement, and diagnostic and child specialists), Instructional Media, Instruction and Curriculum Development Services, Instructional Staff Training Services, and Instructional Related Technology.

General Support Services (7000's) – Activities associated with establishing policy, operating schools and the school system, and providing the essential facilities and services for the staff and students. This includes salaries and expenses for the Board, General Administration (Superintendent's Office), School Administration (Office of the Principal), Facilities Acquisition and Construction, Fiscal Services, Food Services, Central Services (Planning, Research, Development and Evaluation Services, Information

Services, Statistical Services, Personnel Services, Internal Services).

Maintenance of Plant (8100) - Activities concerned with maintaining the grounds, buildings and equipment at an acceptable level of efficiency through repairs or preventive maintenance.

Administrative Technology Services (8200) – Activities concerned with supporting the school district’s information technology systems, including supporting administrative networks, maintaining administrative information systems and processing data for administrative and managerial purposes.

Community Service (9100) – Community Services consist of those activities that are not directly related to providing education for pupils in a school system. These include non-instructional services provided by the school system for the community.

Debt Service (9200) – To record expenditures related to the issuance and retirement of debt, including issuance fees, principal and interest payments, and other debt related expenditures.

- **Other Capital Outlay (9300)** -To report capital expenditures not related to the acquisition and construction of facilities.

The following numeric system is prescribed by the “Redbook” to account for the different functions:

- 5000** Instructional Services
- 6100** Pupil Personnel Services
- 6200** Instructional Media Services
- 6300** Instruction and Curriculum Development Services
- 6400** Instructional Staff Training Services
- 6500** Instructional Related Technology
- 7100** Board of Education
- 7200** General Administration
- 7300** School Administration
- 7400** Facilities Acquisition and Construction
- 7500** Fiscal Services
- 7600** Food Services
- 7700** Central Services
- 7800** Pupil Transportation Services
- 7900** Operation of Plant
- 8100** Maintenance of Plant
- 8200** Administrative Technology Services
- 9100** Community Services
- 9200** Debt Service
- 9700** Transfer of Funds

This numeric system is used for reporting purposes to the FDOE and for monthly budget amendments to the Board.

OBJECT means the goods purchased or the service obtained. There are eight major object categories. The numeric system prescribed by the Redbook used for reporting to the FDOE and for presenting budget amendments to the Board accompanies each object description.

- 100** Salaries

- 200 Benefits
- 300 Purchased Services
- 400 Energy Service
- 500 Materials and Supplies
- 600 Capital Outlay
- 700 Other Expenses
- 900 Transfers

MEASUREMENT BASIS FOR BUDGET REVENUES AND EXPENDITURES

Generally accepted accounting principles for governmental entities are established by the Governmental Accounting Standards Board (GASB) and provide the foundation for financial accounting and reporting for school districts.

Basis of accounting refers to when revenues, expenditures, expenses and transfers and the related assets and liabilities are recognized in the accounts and reported in the financial statements. Generally accepted accounting principles require the use of the modified accrual basis of accounting for governmental funds. This means the revenues are recognized when they become both measurable and available to finance expenditures of the fiscal period. Expenditures are generally recognized when the related fund liability is incurred, if measurable.

Proprietary and fiduciary funds utilize the “full accrual” basis of accounting. That is, revenues and expenses are recognized when they occur, regardless of the timing of the related cash flows.

The Leon County Schools use the modified accrual for the governmental funds (general, special revenue, debt service, capital projects, and permanent).

Most grants accounted for in the special revenue funds require the expenditure of funds as the primary determinant of eligibility for funding. Therefore, the date of expenditure becomes the point of revenue recognition for the grant.

An encumbrance system which charges each purchase order, contract, or salary commitment to an appropriation is used as part of the budgetary accounting system. These transactions cease to be encumbrances when paid, canceled, or when the actual liability is recorded.

In June, 1999, the GASB issued Statement 34, Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments, which required all governments, including special-purpose governments such as school districts, to implement a new financial reporting model. Leon County Schools reported the year-end results for fiscal year 2001-2002 in this format for the first time. The model includes management’s discussion and analysis (MD&A), basic financial statements, notes to the financial statements, and certain other required supplementary information (RSI) other than MD&A.

- The MD&A is a component of Required Supplementary Information (RSI) that precedes the financial statements.
- The basic financial statements include 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

The government-wide financial statements report information for the government as a whole, except for fiduciary funds. These statements reflect the economic resources measurement and the full accrual basis of accounting.

The fund financial statements for governmental, proprietary, and fiduciary funds follow government-wide financial statements. The governmental and enterprise fund statements reflect major funds and combined non-major funds rather than a fund-type presentation. Reconciliation is required to explain the differences between the change in fund balances reported in the fund financial statements and the change in net

assets reported in the government-wide financial statements. Reconciling items arise from differences in the measurement focuses of accounting between the statements, and certain required eliminations.

RSI is supplementary financial information that must be presented with the basic financial statements. Required budgetary comparisons include the original and final budgets for the general fund and each major special revenue fund that has a legally adopted annual budget.

One of the primary differences between the government-wide statements and the fund financial statements is the measurement focus and basis of accounting. The government-wide statements reflect the economic resources measurement focus and the full accrual basis of accounting, while the fund financial statements for governmental funds continue to reflect the current financial resources measurement focus and the modified accrual basis of accounting.

The budget is constructed to address the requirements of GASB 34 as it relates to the chart of accounts, student internal funds, and fiduciary funds.

GLOSSARY OF TERMS

Abatement - A reduction of previously recorded expenditure or receipt item by such things as refunds, rebates, and collections for loss or damage to school property.

Accrued Expense - Expenses, which have been incurred and have not been paid as of a given date.

Accrued Revenue - Levies made or other revenue earned and not collected regardless of whether due or not.

Activity Assignment - A classification of activities performed by a staff member, which indicates what a staff member does.

Administration - Those activities that have as their purpose the general regulation, direction, and control of the affairs of the school system that are system-wide and not confined to one school, subject, or narrow phase of school activity.

Adult Education, Public - Those organized public educational programs, other than regular full-time and summer elementary and secondary day school, community college, and college programs, which provide opportunities for adults and out-of-school youth to further their education, regardless of their previous educational attainment. Only those programs, which have as their primary purposes the development of skills, knowledge, habits, or attitudes, are included. This development may be brought about by formal instruction or by informal group leadership directed toward recognizable learning goals. Activities which are primarily social, recreational, or for the purpose of producing goods are not included.

Ad Valorem Taxes Levied by School System - Taxes levied by a school system on the assessed valuation of real and personal property located within the legal boundaries of the system. In Florida the legal boundary is the county.

Agency for Workforce Innovation (AWI) - The AWI is responsible for implementing policy in the areas of workforce development, welfare transition, unemployment compensation, labor market information, early learning and school readiness.

Aggregate Coverage - Layer of insurance protection above the loss fund (see Loss Fund). It is activated when the sum of all losses that falls under the SIR (Self-Insurance Retention) exceed the established loss fund.

Appropriations State - An authorization granted by the Legislature for specific purposes.

Appropriations, School Budget - An amount estimated to be spent for a specific school purpose.

Area of Responsibility - A subdivision of a Service Area consisting of activities that, regardless of their nature, have a common purpose directly related to the operational objective of the Service Area.

Assets - The entire property owned by a school system. See also Fixed Assets.

Attendance - the presence of a pupil a day school is in session. A pupil may be counted present only when he/she is actually at school, or is present at another place at a school activity which is authorized by the school, is a part of the program of the school, and is personally supervised by a member or members of the school staff. This may include field trips, athletic contests, music festivals, student conventions, and similar activities, when officially authorized under policies of the county school board. It does not include "making up" school work at home, or activities supervised or sponsored by private individuals or groups.

Average Daily Attendance (ADA) - In a given school year, the average daily attendance of a given school is the aggregate day's attendance of the school divided by the number of days school was actually in session. Florida law requires 180 days to be used as the divisor even in those cases in which the State Board of Education has authorized a shorter time.

Average Daily Membership (ADM) - In a given school year, the average daily membership for a given school is the aggregate day's membership of the school divided by the number of days school was actually in session.

Florida law requires a 180-day school term and 180 is used as the divisor, even in those cases in which the State Board of Education has authorized a shorter time.

ARRA Funds - American Recovery and Reinvestment Act (ARRA) - Federal funds appropriated to save or create jobs and to enhance teaching and learning.

Base Student Allocation (BSA) - A specific dollar amount funded on a per student basis. This amount is determined by the legislature each fiscal year. It is the factor in the Florida Education Finance Program (FEFP) that has the greatest monetary impact on funding in the formula.

Board of Education - Consists of the activities of the elected body that has been created according to State law and vested with responsibilities for educational activities in a given geographical area. This Service Area relates to the generic term and covers State boards, intermediate administrative unit boards, and local basic administrative unit boards.

Budget - A plan of financial operation incorporating an estimate of proposed expenditures for a given period or purpose and proposed means of financing them. In Florida, there is a state required budget, which can generally be described as a summary budget. Districts may, at their discretion, develop more detailed budget documents such as those described in the following discussion. The budget usually consists of three parts. The first part contains a message from the budget-making authority together with a summary of the proposed expenditures and the means of financing them. The second part consists of schedules supporting the summary. These schedules describe in detail the proposed expenditures and means of financing them together with information referencing prior year's actual revenues and expenditures and related data used to formulate the estimates. The third part is composed of drafts of the appropriations, revenue, and borrowing measures necessary to execute the budget.

Budgetary Accounts - Those accounts necessary to reflect budget operations and conditions, such as estimated revenue, appropriations, and encumbrances, and distinguished from proprietary accounts.

Budgetary Control - The control of management of the business affairs of the school system in accordance with an approved budget with the objective of maintaining expenditures within the authorized amounts.

Budgeting - Pertains to budget planning, formulation, administration, analysis, and evaluation.

Capital Outlay - Amounts paid for the acquisition of fixed assets or additions to fixed assets. Amounts expended for land or existing buildings, additions to buildings, remodeling of buildings, initial, additional and replacements of equipment, and improvements other than buildings, which are expected to have a useful life in excess of 1 year.

Categoricals - Money that the Legislature sends to school districts that legally can be spent only for certain purposes.

Central Administration Office - A building used primarily for housing personnel and equipment engaged in activities for purposes of the general regulation, direction, and control of the affairs of the school system that are system-wide and not confined to one school, subject, or narrow phase of school activity.

Certified Tax Roll - This is a certificate from the Property Appraiser, which lists the value of Real Property. The Property Appraiser certifies the value to be true and correct to the best of his knowledge and belief. Millage rate are assessed against this roll to generate revenue for the district.

Charter School - Essentially, this is a quasi-private school funded with FEFP dollars under contract to a school board. A group of people appoints a Board of Directors, applies to the District School Board and upon approval operates its school with its own educational agenda with more leeway in meeting state standards. Charter schools cannot charge tuition.

Class Size Reduction (CSR) - A funding source to address the constitutional amendment that there must be no classroom with more than 18 students in Pre-K through 3rd grade, 22 students in grades 4 through 8, and 25 student in grades 9 through 12. This requirement is for "core" subjects such as mathematics, science, English, and other languages. District level averages will be used to determine compliance from fiscal year 2003-2004

through fiscal year 2005-2006. School level averages will be used to determine compliance for fiscal years 2006-2007 and 2007-2008. In 2008-2009 the individual classrooms determine compliance.

Classification, Function - As applied to expenditures, this term means an activity aimed at accomplishing a major service or regulatory objective as a result of a specific expenditure.

Classification, Object - The type of goods or services purchased as a result of a specific expenditure.

Co-Curricular Activities - Co-curricular activities (experiences) are comprised of the group of school-sponsored activities, under the guidance or supervision of qualified adults, designed to provide opportunities for pupils to participate in experiences outside of the classroom on an individual basis, in small groups or large groups for purposes such as motivation, enjoyment, and improvement skills. In practice, participation usually is not required and credit usually is not given. When participation is required or credit given, the activity generally is considered to be a course of study.

Contingent Liabilities - Items that may become liabilities as a result of conditions undetermined at a given date, such as guarantees, pending lawsuits, judgments under appeal, and unsettled disputed claims.

Contracted Services - Services and related expenses rendered by personnel who are not on the payroll of the school system on a contractual basis.

Construction Contracts Payable - Amount owed on contracts for construction of buildings, structures, and other improvements.

Day in Session - A day when school is open and the pupils are under the guidance and direction of teachers in the teaching process. On some days the school plant itself may be closed and the student body as a whole is engaged in school activities outside the school plant but under the guidance and direction of teachers. Such days should be considered days in session. Days when the school is closed for purposes such as holidays, teachers' in-service and inclement weather should not be considered days in session.

Days of Attendance - A day of attendance is when a pupil is present for the full day under the guidance and direction of a teacher while school is in session. If overcrowded conditions cause two separate sessions with a different group of pupils in each session, a pupils attending all of either session would be considered as having attended the full day. Excused absence during examination periods; because of sickness; or for any other non-school activities reason should not be counted as days of attendance. See also DAY IN SESSION.

Debt Service - Expenditures for the retirement of debt principal and interest, except principal and interest of current loans.

Debt Service Fund - The fund used to finance and account for payment of interest and principal on all debt except principal and interest of current loans.

Declining Enrollment Supplement - In those districts where there is a decline between prior year and current year students, 50% of the decline is funded.

Deficit - The excess of the obligations of a fund over the fund's resources.

District Cost Differential (DCD) - An average of the previous three years of the Florida Price Level Index as determined by the Executive Office of the Governor. These three-year averages are adjusted as provided in Section 236.081(2), Florida Statutes. Its purpose is to recognize differences in the cost of living.

Dual Enrollment - Enrollment of an eligible secondary student in a post-secondary course at a public or eligible non-public community college or university or vocational center located in and operated by another school board under an inter-institutional articulation agreement, which meets the statutory requirements. The course must offer credit leading to a high school diploma, to a vocational certificate, or towards an associate or baccalaureate degree.

Due from Other Funds - An asset account used to indicate amounts owed to a particular fund by another fund in the same school system for cash advanced, goods sold, or services rendered. It is recommended that separate accounts be maintained for each interfund receivable.

Due from Internal Funds - An asset account used to indicate amounts due from funds under control and management of the individual schools of the system.

Due from the State - Amounts due to the reporting district from the state. Separate accounts should be maintained for each receivable.

Due to Fiscal Agent - Amounts due to fiscal agents such as commercial banks, for servicing a school system are maturing indebtedness.

Due to Other Funds - A liability account used to indicate amounts owed by a particular fund to another fund in the same school system for cash advanced and goods or services received.

Due to the State - Amounts owed by the reporting district to the state. Separate accounts should be maintained for each payable.

Elementary School - A school classified as elementary by State and local practice and composed of any span of grades not above grade eight. Organizational patterns or subdivisions within these schools may be identified under pre-primary level, primary level, intermediate or upper elementary level.

Employee Benefits - Amounts paid by the school system on behalf of employees. These amounts are paid in addition to but are not included in the gross salary. Such payments are, in a sense, overhead payments. They are fringe benefit payments, and, while not paid directly to employees, nevertheless are part of the cost of salaries and benefits. Examples are: (a) Group health or Life Insurance; (b) Contributions to Employee Retirement; (c) Social Security; (d) Workmen's Compensation; and (e) payments made to personal or sabbatical leave.

Encumbrances - Commitments related to unperformed (executory) contracts for goods or services, for which a part of the appropriation is reserved. They cease to be encumbrances when paid or when actual liability is recognized.

Equipment - Expenditures for the initial, additional, or replacement items of equipment, such as furniture and machinery.

Estimated Revenue - The amount of revenue estimated to be collected during a fiscal year. The amount must be capable of being measured and it must be available for current year expenditures to be accrued.

Excess Insurance - Any insurance protection that is above the SIR (self-insured retention).

Expenditures - Decreases in net financial resources under the current resources measurement focus.

Facilities Acquisition and Construction - Consists of activities involved with the acquisition of land and buildings; remodeling buildings; the construction of and additions to buildings; initial installation or extension of service systems and other built-in equipment; and improvements to sites.

Facility - Refers to a physical place, usually referenced by a building designation or number. It should not be confused with the area of responsibilities of the school system. A single facility may house more than one "Service Area" or "Area of Responsibility". It is also not unusual for a Service Area or Area of Responsibility to be housed in more than one facility.

Family Empowerment Scholarship - The Family Empowerment Scholarship (FES) Program was established during the 2019 Legislative Session. It provides children with limited financial resources with the opportunity to attend the school that best meets their needs and enables them to reach their academic goals.

FEFP (Florida Education Finance Program) - In 1973, the Florida Legislature passed the Florida Education Finance Program to guarantee each student in the Florida public school system the availability of programs and services appropriate to his/her educational needs which are substantially equal to those available to any similar student, notwithstanding geographic differences and varying local economic factors.

To provide equalization of educational opportunity in Florida, the FEFP formula recognizes (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per student cost for equivalent educational programs due to sparsity and dispersion of student population.

The key feature of the finance program is that it bases financial support for education upon the individual student participating in a particular educational program rather than upon the number of teachers or classrooms.

Financial Accounting Foundation (FAF) - Finances and oversees the Financial Accounting Standards Board (FASB) and the Governmental Accounting Standards Board (GASB).

Fiscal Year - An accounting period of 12 months at the end of which a school board determines its financial condition and the results of its operations, upon closing its books. The fiscal year for Leon County Schools is July 1 through June 30.

Fixed Assets - Land, buildings, machinery, furniture, and other equipment which the school system intends to hold or continue in use over a period of time in excess of 1 year. "Fixed" denotes probability or intent to continue use or possession, and does not indicate immobility of an asset.

FTE - A student in attendance 25 hours per week or a combination of full-time and part-time students receiving 25 hours of instruction per week. FTE is calculated twice during the 180-day school year for K-12 students and two times during the summer for Department of Juvenile Justice students.

Full Service Schools - A school used as a community center for low-income parents. It offers one-stop shopping for government services such as health clinics, sheriff's substations, adult literacy programs and HRS offices that handle food stamps, Medicaid and Social Security.

Full-Time Equivalent - The amount of employed time required in a part-time position expressed in proportion to the time required in a full-time position. It is derived by dividing the amount of employed time required in the part-time position by the amount of employed time required in a corresponding full-time position. It should be to the nearest tenth when expressed as a percentage.

Fund - A fiscal and accounting entity with resources set aside for specific activities of a school system. A fund constitutes a complete entity and all of the financial transactions for a particular fund are recorded in it. Major funds are General Operating Fund, Special Revenue Funds, Debt Service Fund, and Capital Projects Funds. Each of the funds may contain minor funds that are separately accounted for within the "umbrella" of the primary fund.

Fund Balance - The excess of the assets of a fund over its liabilities and reserves except in the case of funds subject to budgetary accounting where, prior to the end of the fiscal period, they represent the excess of assets and estimated revenues for the period over liabilities, reserves, and appropriations for the period.

General Fund - Used to account for all transactions, which do not have to be accounted for in another fund. Used to account for all ordinary "day-to-day" operations of a school system.

Governmental Accounting Standards Board (GASB) - Organized in 1984 by the Financial Accounting Foundation (FAF) to establish standards of financial accounting and reporting for state and local governments. These standards guide the preparation of external financial reports of those entities.

Grant, Public - A contribution, either money or material goods, made by one governmental unit to another governmental unit and for which the contributing unit expects no repayment. Grants may be for specific or general purposes.

Hold Harmless - Provides whatever amount is necessary to ensure that every district receives a 1% increase in total funding per weighted student total.

Improvement Other Than Buildings - Expenditures for the improvement of new and old sites and adjacent ways, consisting of such work as: Grading, landscaping, seeding and planting of shrubs and trees, constructing new sidewalks, roadways, retaining walls, sewer and storm drains, and installing hydrants; original surfacing and soil treatment of athletic fields and tennis courts; furnishing and installing for the first time, fixed playground apparatus, flagpoles, gateways, fences, and underground storage tanks which are not part of building service systems; and demolition work.

Indirect Expenses - Those elements of cost necessary for the provision of a service, which are of such nature that they cannot be readily or accurately identified with the specific service. For example, the custodial staff may clean corridors in a school building, which is used jointly by administrative, instructional, maintenance, and attendance personnel. In this case, a part of custodial salaries is an indirect expense of each service using the corridors. However, it is impossible to determine readily or accurately the amount of the salary to charge each of these services.

In-service Training - Pertains to the systematized activities directed by the school system that contributes to the professional or occupational growth and competence of staff members during the time of their service to the school system.

Instruction - Instruction includes the activities dealing directly with the teaching of pupils. Teaching may be provided for pupils in a school classroom; in another location such as in a home or hospital; and other learning situations such as those involving co-curricular activities. It may also be provided through some other approved medium such as television, radio, telephone, computer and correspondence.

Instructional Administration - Consists of those activities involved with directing and managing an instructional program for pupils, aiding teaching, and improving the quality of teaching and the curriculum.

Interfund Transfers - Money taken from one fund under the control of the board and added to another, budgeted fund under the board's control. Interfund transfers must be included on the budget of the school board.

Inventory - A detailed list or record showing quantities, descriptions, values, and frequently, units of measure and unit prices of property on hand at a given time. It is also, the cost of supplies and equipment on hand not yet distributed to requisitioning units.

Investments - Securities and real estate held for the production of income in the form of interest, dividends, rentals, or lease payments. The securities must be the type authorized by statute for the investment of school funds.

Judgments Payable - Amounts due to be paid by a school system as the result of court decisions, including condemnation awards in payment for private property taken for public use.

Levy - (verb) to impose taxes; (noun) the total of taxes imposed by a governmental unit.

Liabilities - Debt or other legal obligations arising out of transactions in the past which are payable but not necessarily due. Encumbrances are not liabilities; they become liabilities when the services or materials for which the encumbrance was established have been rendered or received.

Local Required Effort - See Required Local Effort.

Loss Fund - The dollar amount established to pay for claims falling within the Self Insured Retention (SIR) layer of coverage. This estimate is made using the worst case scenario.

Lottery District Discretionary Fund - An amount (Lottery Revenue) is appropriated from the Educational Enhancement Trust Fund to be expended in accordance with the school district adopted policies and procedures that define enhancement and the types of expenditures consistent with that definition. Districts are required to provide the Department of Education with a copy of these policies and procedures and to submit an annual report showing all actual expenditures of enhancement funds.

Magnet School - A public school that offers specialized learning, such as science, foreign languages or arts. It provides students more educational choices and is often part of a strategy to address the creation of a more favorable racial and ethnic mix of students.

McKay Scholarships - A voucher program where exceptional student education (ESE) students apply for the "scholarships" from the Department of Education. The amount of the voucher is deducted from the public school district's Florida Education Finance Program (FEFP) allocation and is sent to the private school the student has designated.

Membership - A pupil is a member of a class or school from the date entered in school and is placed on the current roll until withdrawing from the class or school for one of the causes recognized as sufficient by the State. The date of permanent withdrawal should be the date of official withdrawal and not necessarily the first day after the date of last attendance. Membership is obtained by adding the total original entries and the total re-entries and subtracting the total withdrawals; it may also be obtained by adding the total number present and the total number absent. This term is also known as the "number belonging."

Miscellaneous Expenditure - Expenditures for all expenses not classified in other accounts. School systems are cautioned to use this account title only after all other attempts to classify the expenditure have been exhausted.

Millage - A rate used in calculating taxes based upon the value of property, expressed in mills per dollar of property value. A mill is an increment of taxation measured in units of one-tenth of one cent, or (.001) one thousandth of one dollar. In Florida one mill is one thousandth of a dollar. This is equal to one dollar for every one thousand dollars of assessed property value.

No Child Left Behind (NCLB) Act - This is the most sweeping change made to the Elementary and Secondary Education Act since it was enacted in 1965. NCLB was signed into law by President Bush on January 8, 2001. It requires all states to utilize state assessments to determine if schools have made Adequate Yearly Progress (AYP) in the proficiency of all students. Four measures will be used for determine how well schools perform: (1) AYP (2) school grade (3) individual student progress towards annual learning targets to reach proficiency, and (4) a return on investment measure linking dollars to achievement.

Non-categorical - This is revenue from any source that is not identifiable with specific legislatively restricted expenditures. It is general fund revenue, which loses its identity as it is expended for objects relating to many service areas.

Object - An object of expenditure refers to the commodity or service obtained from a specific expenditure.

Obligations - Amounts which the school system will be required to pay out of its resources, including both liabilities and encumbrances.

Other Personal Services - Compensation for services rendered by a person who is not a regular or full-time employee filling an established position. The following classifications of employees are chargeable to OPS;

- a. Substitute Teachers - substitute teachers who are not under written contract to the board.
- b. Student - any person who is a bonafide student of that school district, college or university.
- c. Teacher Aides - teacher aides filling temporary positions that are established by months.
- d. Temporary Help - person performing services on a temporary basis on tasks that are non-continuous in nature (i.e., craftsmen hired by maintenance solely to construct portables and are released when task is completed, casual or day labor, other types of services that are non-repetitive).
- e. Adult Education and Vocational Instructors - Non-certified person(s), who are not regular employees, teaching courses that are non-continuous or temporary in nature.

Planning - Pertains to determining orderly techniques and processes for achieving objectives and fulfilling responsibilities. There are many levels of planning. At its highest level, planning is concerned with guiding internal change so that the school system effectively adapts to the dynamic community it serves.

Program Cost Factors - The cost of services on a per student basis used to allocate the base student allocation in a rational equitable manner.

Purchase Order - A document, authorizing the delivery of, specified merchandise or the rendering of certain services with a specific cost, used to budgetary reserve that amount until the goods are delivered or the service is rendered.

Purchased Services - Amounts paid for personal services rendered by personnel who are not on the payroll of the local education agency, and other services, which the local education agency may purchase. While a product

may or may not result from the transaction, the primary reason for the purchase is the service rendered to obtain the results.

Reading Instruction - This appropriation must be spent on K-12 comprehensive district-wide system of research based reading instruction. Funds are released upon approval by DOE of the district's reading plan.

Receipts, Nonrevenue - Amounts received which either incurs an obligation that must be met at some future date or change the form of an asset from property to cash and therefore decrease the amount and value of school property. Money received from loans; sale of bonds; sale of property; and proceeds from insurance adjustments constitute most of the nonrevenue receipts.

Receipts, Revenue - Inflows or other asset enhancements during a period, which do not incur an obligation that must be met at some future, date and represent exchanges of property for money.

Refund - An amount paid back or credit allowed because of an over-collection or because of the return of an object sold; providing for the payment of a loan through cash or credit secured by a new loan.

Refund of Prior Year's Expenditures - Money received in refund of an expenditure made to a prior fiscal year's budget. A refund of an expenditure made in the same fiscal year's budget may be recorded in the appropriate expenditure account as a reduction of the expenditure.

Required Local Effort (RLE) - This is a millage rate established by the Florida Legislature as a requirement for participation in the Florida Education Finance Program.

Reserve - An amount set aside for some specified purpose.

Reserve for Encumbrance - A reserve representing the segregation of a portion of a fund balance to provide for services to be rendered or goods to be delivered. Separate accounts may be maintained for current and prior year encumbrances.

Revenues - Inflows or other asset enhancements during a designated period of time. At the end of the fiscal period, it is closed out to fund balance and does not appear as a separate item in the balance sheet prepared at the close of the fiscal period.

Roll Back Rate - This is the millage rate that would procure the same amount of dollars as the prior year if applied to the current year tax roll.

Safe Schools - Allocation to be used for (1) after school programs for middle school students, (2) other improvements to enhance the learning environment, including implementation of conflict resolution strategies, and (3) alternative school programs for adjudicated youth. Two-thirds of the allocation is based on the district's crime index published by the Florida Department of Law Enforcement and one-third is based on the district's weighted FTE.

School Term - A prescribed span of time when school is open and the pupils are under the guidance and direction of teachers. The minimum number of days for the school term is 180.

Scope of Service - The Scope of Service dimension relates breadth of activities of the area of responsibility, i.e., single school or system wide.

Self-Insurance - That portion of our insurance liability that the Board is willing to pay itself.

Self-Insured Retention (SIR) - The amount/limit of loss per incident/occurrence that the Board is willing to pay for each and every covered loss. These amounts are \$500,000 for automobile and general liability, \$100,000 for property, and \$500,000 for workers' compensation.

Source of Funds - This dimension identifies the expenditure with the source of revenue, i.e., local, state, federal, and other to differentiate categorical expenditures from non-categorical expenditures.

Sparsity Supplement - Allocation to recognize differences in sparsity of student population within a district. Eligibility is limited by the Appropriations Act Proviso to districts with 20,000 or fewer UFTE students.

Student Activity Funds - Used to record financial transactions related to school-sponsored pupil activities and interscholastic activities. These activities are supported in whole or in part by income from pupils, gate receipts, and other fund-raising activities.

Supplies - Expenditures for ALL supplies, which are actually or constructively consumed in the operation of a local education agency, including freight and cartage on them. A supply item is any article or material which meets any one or more of the following conditions; (1) it is consumed in use; (2) it loses its original shape or appearance with use; (3) it is expendable; that is, if the article is damaged or some of its parts are lost or worn out, it is usually more feasible to replace it with an entirely new unit rather than repair it; (4) it is an inexpensive item, having characteristics of equipment, whose small unit cost makes it inadvisable to capitalize the item; or (5) it loses its identity through incorporation into a different or more complex unit or substance. Included are coal and wood used for heating purposes. If such supplies are handled for resale to students, only the net cost of supplies is recorded here.

Supplemental Academic Instruction - The first priority for this appropriation is for supplemental intensive instruction including summer school and intensive English immersion instruction.

Supporting Services - Supporting services provide administrative, technical (such as guidance and health), and logistical support to facilitate and enhance instruction. Supporting Services provide the indirect activities needed to support and facilitate classroom instruction.

Teacher Lead Program - Funds sent to the District to be equally distributed to each teacher in the form of individualized checks to be spent for classroom materials and supplies at the discretion of the teacher to assist teaching and learning in the classroom.

Transfer from Other Funds - Money received unconditionally from another fund without expectation of repayment. Such monies are revenues of the receiving fund, but not of the school system as a whole. Separate accounts may be maintained for specific funds.

Travel - Costs for transportation, meals, hotel, and other expenses associated with traveling on business for the local education agency. Payments for Per Diem in lieu of reimbursements for subsistence (room and board) also are charged here.

Work Order - A written order authorizing and directing the performance of a certain task, issued to the person who is to direct the work. Among the information shown on the order are the nature and location of the job, specifications of the work to be performed, and a job number, which is referred to in reporting the amount of labor, materials, and equipment used.

Workforce Development - Replaces the traditional adult funding cost factors within the Florida Education Finance Program. A new process was created to provide performance-based funding for all workforce development programs based on cost categories, performance output measures, and performance outcome measures.
