What is a Healthcare Flexible Spending Account (FSA)?

A Flexible Spending Account is an employer-sponsored benefit that allows you to pay for eligible medical expenses on a pre-tax basis. If you expect to incur medical expenses that won't be reimbursed by an insurance company or another plan, FSAs are a great way to save money while covering those costs.

How does it benefit me?

A FSA saves you money. The contributions you make to a FSA are deducted from your pay before your Federal, State and FICA taxes are calculated and are never reported to the IRS. The end result is that you decrease your taxable income and increase your spendable income. You can potentially save hundreds of dollars.

Estimated Eligible Expenses	Without Plan	WITH Plan
Annual Salary	\$30,000	\$30,000
Annual before-tax contribution	0	-\$2,400
Taxable Income	\$30,000	\$27,600
Estimated taxes (30.65%)*	-\$9,195	-\$8,460
Annual after-tax contribution	-\$2,400	0
Net take-home pay	\$18,405	\$19,140
Increase in Spendable Income		\$735

**For illustrative purposes only. Based on a monthly premium of \$200 and average tax rates of 20% Federal, 3% State and 7.65% FICA. Your tax situation may be different. Consult your tax advisor for actual savings.*

How does a Healthcare FSA work?

For 2018-2019 you can contribute up to \$2,650 annually to your Flexible Spending Account. This annual election amount will be deducted evenly from each pay check on a pre-tax basis and put into your FSA. You can then use the funds to pay for eligible expenses. Changes to your annual election amount are only permitted due to a Qualifying Life Event such as marriage, divorce, death, disability, adoption of a child or birth of a child.

A big perk to a FSA is that it is pre-funded, meaning that you will have access to your full annual election amount at the very beginning of the plan year, regardless of the amount deducted from your paycheck. That is like having a tax-free, interest-free loan to help you pay for healthcare expenses.

How do I get reimbursed?

As you incur healthcare expenses throughout the year, you can access your funds by using your Benefits Card® for eligible expenses or get reimbursed for your out-of-pocket expenses by submitting a claim form. Claims should be sent to Murfee Meadows via fax, email or regular mail.

What is the Benefits Card®?

The Benefits Card® is a MasterCard® that can be used for qualified healthcare expenses. When you use the card for purchasing healthcare related items, your healthcare account is automatically debited to pay for eligible expenses. You can use the card at qualifying merchant locations that accept MasterCard®.

Can I change my election during the plan year?

Since these plans are regulated by the IRS, there are specific rules that apply. The IRS requires that you make your election decision before the new plan year begins each year; or before your effective date if you are newly eligible. The election decision remains in effect for the plan year, unless you have a Qualifying Life Event. Call Murfee Meadows for more details on the rules.

Are there any Special Plan Rules?

- You may only enroll in the FSA during open enrollment or when you first become eligible. Once you establish your plan year contribution, you can only change it if you experience a Qualifying Life Event.
- Any funds left in your account at the end of the plan year can be rolled over to the next plan year (up to \$500).
- You may file paper claims through the 30 day run out date following the plan year as long as the claims were incurred during the plan year.
- If you or your family members are covered by health insurance elsewhere, you can still claim the qualifying out-of-pocket healthcare expenses under your employer's FSA.
- Remember that your expenses must be incurred during your period of coverage. Expenses are considered as having been incurred when you are provided healthcare or dependent day care services, not when you are formally billed.
- Always keep your receipts. You may be asked to submit proof of purchase. New IRS and DOL rules may require a doctor's prescription when purchasing certain Over-The-Counter (OTC) items and/or submitting a claim for reimbursement.

Do I have access to my account information?

Yes! To check the balance in your account, view transactions or your claim history, go to <https://www.mywealthcareonline.com/murfeemeadows/>. Please refer to the page regarding "Online Access" for details on how to set up your online account.

What is a Dependent Care FSA?

A Dependent Care FSA (DCA) is a Flexible Spending Account that allows you to set aside pre-tax dollars for Dependent Care expenses. Since DCA contributions are deducted from your paycheck on a pre-tax basis, your taxable income is reduced. Participants enjoy a 30.65%* average tax savings on their annual DCA contributions.

Which Dependents qualify under DCA rules?

- Your qualifying child under the age of 13, who shares the same residence with you, or
- Your spouse or qualifying child or relative who is physically or mentally unable to care for him/herself who shares the same residence with you and has income less than the federal exemption amount.

What are the annual contribution limits?

The IRS DCA annual contribution limits are \$5,000 if you file your income taxes as single or married filing jointly; and \$2,500 if you are married filing separately.

Why should I enroll in a Dependent Care FSA?

Child and dependent care is a large expense for many American families. Millions of people rely on child care to be able to work, while others are responsible for older parents or disabled family members. If you pay for care of dependents in order to work, you'll want to take advantage of the tax savings this plan offers. Money contributed to a DCA is free from Federal, State and FICA taxes and remains tax-free when you pay your expenses.

Tax Status	DCA Contribution	Annual Tax Savings*
Single	\$2,500	\$766
Married	\$3,500	\$1,073
Married	\$5,000	\$1,532

*For Illustrative purposes only. Based on estimated 20% Federal, 3% State and 7.65% FICA tax rates.

What expenses are DCA eligible?

Dependent Care FSA funds cover costs for your eligible dependents while you are at work:

- Before school or after school care (other than tuition)
- Custodial care for dependent adults
- Licensed day care centers or individuals
- Nursery schools or pre-schools
- Placement fees for a provider, such as an au pair
- Day camp, nursery school, or a private sitter
- Late pick-up fees
- Summer or holiday day camps

What DCA expenses are not eligible for reimbursement?

These items are not eligible for tax-free purchase with dependent care FSA funds:

- Expenses for children 13 and older, unless the child is disabled
- Care provided by a relative that lives in your household or your dependent under age 19
- Educational expenses including kindergarten or private school tuition fees
- Amounts paid for food, clothing, sports lessons, field trips, and entertainment
- Care for dependent while sick employee stays home
- Overnight camp expenses
- Registration fees
- Transportation expenses
- Late payment fees
- Advanced payments

How does the DCA FSA work?

With a Dependent Care FSA, you can only be reimbursed up to the amount that has been deducted from your paycheck. You can submit claims for reimbursement to Murfee Meadows.
