

Florida Science Adoption Digital Platform Training

Professional development is at our company's core and will be provided to teachers, campus leaders, and district leaders as part of your adoption purchase price.

Your initial training session includes an overview of the following:

- Navigation of digital platform
- Student and teacher resources
- 5E + Intervention and Acceleration elements
- Hands-on activities and sample lessons
- Virtual or face-to-face delivery

New teacher training will be available before the start of each subsequent school year for anyone new to the district or in need of a refresher course.

Note: training sessions can accommodate a maximum of 35 participants.

We also offer follow-up training and/or coaching for instructional leaders, district coaches and educators. Our team can customize a professional learning plan to address your teachers' specific needs through collaboration and data review. We meet teachers where they are on their STEM professional learning path, support their effective use of STEMscopes, and ensure continued growth and development.
