Onboarding and Support

Onboarding is provided at no cost to the district. The customer success team delivers virtual meetings, providing tools and essential information necessary to get started. During this time, we provide a walk-through of enrollment, course set up, and basic teacher features. eDynamic guides district participants through this process to ensure accessibility and practice for teachers and administrators. At any point during the license implementation, teachers and administrators have access to the eDynamic national support team via email or the Support web page.

The Implementation Essentials workshop focus is for teachers to learn the foundational skills needed to implement an eDynamic Learning course. Participants interact with the curriculum and participate in action-oriented activities, so they are prepared to fully implement the course. Explorations include how to navigate the course, understanding lesson structure, digital features, components for instructional support, and teacher resources. This session also includes formative and summative assessments, rubrics, and the basics for course customization. These workshops can be held in-person or virtually.
