TCI Implementation & Training Plan

TCI has nearly three decades worth of experience as a leader of [professional development](#) in all levels of K-12 education. Included in the adoption of TCI are the trainings listed below. TCI will work with you to build a schedule around your district calendar. The number of training sessions offered is determined by the scope of implementation.

TCI Onboarding Trainings	Cost
Getting Started with TCI TCI Trainers immerse teachers into their new program with an engaging lesson walk through. Then, trainers facilitate a program overview and hands-on exploration of online resources. Trainers also answer practical teacher implementation questions in an engaging atmosphere.	Included gratis with adoption (Initial year of implementation)
In-App Training Our self-paced courses are designed to unlock the power of TCI's pedagogy and program features. Participants who complete the course earn a certificate and progress can be measured by administrators	Included gratis with adoption
Building TCI Advanced Skills Webinar Further, develop your TCI skills with customized PD sessions or have a TCI expert build one for you! Popular custom topics include: • Using TCI Assignments and Assessments • Grading with TCI • Using TCI with your LMS • Follow-Up Q&A Session	Included gratis with adoption

Ongoing PD Support	Cost
New Teacher Webinar At the beginning of each school year, set new teachers up for success with their new program. A TCI Trainer will provide an engaging lesson walk through, facilitate a program overview, and provide hands-on exploration of online TCI resources.	Included gratis with adoption
