

GRIZZLIES AT HOME

KEEPING IN TOUCH WITH OUR CUBS

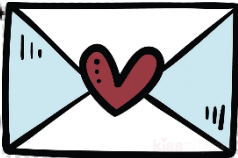

THURSDAY, APRIL 23RD

Love kid podcasts? Visit thewalkingclassroom.org and scroll down for access to 26 different ones!

No better way to celebrate planet Earth, than to look at its beauty from space. Check out a live stream from the International Space Station. https://www.nasa.gov/multimedia/nasatv/iss_ustream.html

Practice those writing skills, and mail a letter to a classmate!

If you haven't had a chance to check out the AMAZING activities that our PE Coaches put together for our Grizzlies, head over to grizzlyspecialarea.com. You will find fun at home challenges to keep your body moving!

Earth Day
STEM challenge

Put your earth friendly, engineering mind to the test. Using newspaper or wrapping paper and string, see if you can make a bag

strong enough to carry canned goods. If it can, challenge yourself to add more and more to the bag. If it can't, rethink your design and try again!

Snap a pic and share what you're learning at home using **#gesgrizzliesathome**.
