## Dot & Cut

All Things Preschool

# Thank You....

Thank you for downloading Ladybug Dot & Cut. Your students will love doing Dot & Cut activities....and you will love all the fine motor practice!

Students begin by using their Bingo Daubers to “dot” the ladybugs. Students can color the ladybugs if they prefer. Once they have dotted the ladybugs, they then cut through the lines. I noticed that with my students, I am always asking them to cut things out. However, they always want to cut right through the middle. This lets them cut through the middle!

The papers have been designed so they stop cutting before they get to the end. This allows these papers to be sent home with the students so the parents are able to see how their students are doing!

Thank you for stopping by All Things Preschool! Please follow this store for all the latest updates, sales, and newest products!

If you enjoy this products, please check out some of All Things Preschool’s other Dot & Cut products:

- \*Buttons Dot & Cut {Inspired by our favorite cat named Pete}
