DUE DATES

- Work is assigned a due date in the system, but if students don't turn it in on time, the window closes.
- What to do? The **REAL DUE DATE** is on our schedule, and I'll leave the due date in the system open for a few days after that. Don't confuse this with the REAL DUE DATE. That will be when I expect the work. **All students should strive to turn in assignments the day the schedule says they're due.**
- This week, there is no penalty for late work, but that will change as we get used to things.
