

SuccessMaker Starting Levels for English Learners

Changing Starting Levels

As you begin your implementation of SuccessMaker with your English Learners, remember that the Math and Reading courses will find the students' functioning levels during Initial Placement. Before Initial Placement begins, you will need to adjust the Starting Level for your students in the Teacher Dashboard. Be sure to adjust your students' levels before they log in to SuccessMaker for the first time.

To adjust the Starting Level for each student, log in to the Teacher Dashboard and click **Students** at the top of the page. Then, under the Performance tab, click the Action icon to the right of the individual student's assignment and select **Edit assignment settings**. Set "Manually set course level" to **On** and use the "Course level" slide bar to set the correct starting level. Then click **Save** to save the settings for the student.

Choosing Starting Levels

Select a Starting Level

To determine the best Starting Level to select for each student, use your state language proficiency (LP) assessment to determine language proficiency levels. Then, take that level and use Table 1 or 2, depending on how many LP levels your state recognizes, and use the SuccessMaker starting level that corresponds to the Language Proficiency level.

If a student's demographic grade or grade equivalency (GE) level is lower than the starting level recommended by the tables below, don't use the levels from the tables. Instead, use the demographic level or the GE level as a starting level.

Table-1. Suggested Starting Levels (4 Levels)

English Language Level	Grade Level Equivalency	SuccessMaker Starting Levels
Level 1	K-1	0.00
Level 2	1-2	1.00
Level 3	3-4	3.00
Level 4	5+	3.00

Table-2. Suggested Starting Levels (5 Levels)

English Language Level	Grade Level Equivalency	SuccessMaker Starting Levels
Level 1	K-1	0.00
Level 2	1-2	1.00
Level 3	2-4	2.00
Level 4	4-5	4.00
Level 5	5+	4.00

Example of how Starting Levels are Determined

Table 3 below is an example of how we determined the starting levels based on language proficiency levels. Your state may have more or fewer language proficiency levels or use different language for each level.
