

Math of Me Activity

Assignment Description: It's your time to shine and be creative in math! Your task is to create a product that shares 8 numerical facts about yourself. For example: Your favorite number, jersey number, etc. You will write an Algebra appropriate math problem (Non example: $2+2$) with the answer being the number in your numerical facts. **Please be sure not to include the answer on your sheet (notice on the example provided there are no answers).** You will make sure your answers are on the BACK of your final product.

Math of me breakdown:

Your 8 numerical expressions are grade appropriate

Expressions are accurate

A picture of yourself is included

Your name & period are on the front

A description for each item is listed

Your document is neat and put together well

Rima Kelley
