Significant Quotations

Choose five of the following six literary elements. Identify a significant passage from the story that focuses on each element. Quote the text. After each quote, write the page number, and in at least 2-3 sentences, analyze the significance of your quotation. Consider the following questions: Why is this important? What does it reveal? Why does the author say it this way? What is the tone or mood of the passage? (Do not simply state plot. Do not simply define the literary terms.) You must blend your text with the author's text. No stand alone quotations.
