Cyberbullying 10-Tip Plan

In this activity, you will form teams to define cyberbullying and identify realistic ways to counteract it.

1. Form teams of three to four students each.

2. In your teams, create a definition for cyberbullying.

3. Identify key words or phrases that describe the acts, the methods, the consequences and the counteractions of cyberbullying.

4. Discuss all members' definitions and ideas among your team.

5. Choose key points from each team member to make one overall definition.

6. Choose key points from each team member to create 10 tips for counteracting cyberbullying. You can display this 10-Tip Plan near all school computers.

    Examples might include:

    - Treat others with respect.

    - Keep passwords secret.

    - If you do not want the world to know, then do not post it!

    - Never post personal information online that can identify you in any way.
