Activity ✓

Identifying and Describing Computer Parts

In this activity, you will identify each of the basic computer components and its functions.

1. Read through the list of computer parts below.
2. For each image that follows in the table, write the name of the correct computer part from the list.
3. Write a brief description of the purpose for each computer part that you name.

| Case | Hard drive | RAM | Heat sink/fan |
| Power supply | CPU | Motherboard | Expansion card |

	Example Image	Computer Part Name	Description
1.			
2.
