

Learn to Code – Codecademy.com

In this activity, you will complete PHP tutorials.

1. Visit the Codecademy interactive PHP tutorials at <http://www.codecademy.com/en/tracks/php>.
2. Learn how to write the code for the programming components you learned in this course:
 - Controls
 - Loops
 - Functions
 - Objects
3. If you get stuck, check out the Q&A Forum for help.
4. Codecademy also has tutorials on Python, Ruby and JavaScript. Experiment with a few to see which language you like best.
