

Having Fun with Typography

In this activity, you will experiment with different fonts.

1. Using a word-processing program, type the following text:

Typography is fun!

2. Copy and paste the text five times.
3. Separate each line of text by pressing **ENTER** twice.
4. Using the font properties, experiment with various font types, sizes, colors, effects, letter spacing and so on.
5. Compare your creations with the other students' creations.
6. How do the color and font styles used affect the "mood" of the text?
7. What kinds of sites would these fonts work well on?

Typography is fun!

TYPOGRAPHY IS FUN!
