

Describing Navigation Structures

In this activity, you will review the navigation structures of a variety of Web sites.

1. Locate four different Web sites: an e-commerce site, a non-profit site, a Web designer portfolio site and a news site.
2. Using the site and navigation structure principles outlined in the lesson, complete the table below for the four Web sites you chose.

Name of Site	Type of Site	Purpose of Site	Navigation Structure	What I Liked	What I Disliked
CIW Certified <i>www.CIWcertified.com</i>	<i>Web technology professional education and certification</i>	<i>Provides information to students and teachers -Sells self-study curriculum</i>	<i>Hierarchical</i>	<i>Horizontal navigation changes to display specific section links Vertical navigation stays the same Breadcrumb trails used</i>	<i>No Home link on page or breadcrumb trail</i>
