

Creating a Blog

In this activity, you will create a blog to document your learning experiences with the ICT Web Design Essentials course.

1. Visit one of the sites presented in this lesson that offers free blogs, such as www.blogger.com, or add a blog to your Wix Web site.
2. Follow the site's instructions to create your own blog.
3. Use your blog to share information you have learned about Web design. Create a list of Web sites that you find useful or interesting. Note useful Web design resources or interesting features, such as a good tips, cool graphics or easy-to-use navigation.
4. Write a brief description about each site that interests you. Include the site URL and the reason it interests you.
5. Share your blog with your classmates or friends.
