

# Case Study: Purchasing a New Tablet

## Directions

In this case study, you will use the spreadsheet skills you learned throughout this course. Read the following case study scenario. Then complete the assignment that follows.

## Scenario

Your boss needs to purchase a new tablet for work and has asked you to provide her with a list of four Android tablets for her to choose from. The list must include the manufacturer, model, screen size, resolution, storage capacity and price for each tablet.

## Assignment

1. Using Newegg.com, collect the required information for four tablets of your choice.
2. Create a spreadsheet that contains the information.
3. Create a column chart that displays the manufacturer and price for each tablet.
4. Save the spreadsheet as **Tablets-[your first initial and last name]**
5. When you have completed the assignment, save the spreadsheet and submit it to your teacher as directed.

Your spreadsheet and chart should appear similar to Figure CS2-1 and CS2-2.

	A	B	C	D	E
1	Manufacturer	Acer	Asus	Samsung	LG
2	Price	\$399.00	\$306.00	\$274.99	\$279.99
3	Model	SM-T700NTSAXAR	ME302C-A1-WH	Galaxy Tab 3 10.1	LGV500.AUSAWH
4	Screen Size	8.4"	10.0"	10.1"	8.3"
5	Resolution	2560 x 1600	1920 x 1200	1280x800	1920x1200
6	Storage Capacity	16GB	16GB	16GB	16GB
